SUBJECT INDEX*

A

Abdomen, compression of sympathetic trunk by osteophytes of vertebral column in (Nathan), 609

Abdominal aortic aneurysms, surgical treatment (May et al.), 711

masses in children under one year of age (Raffensperger and Abousleiman), 514

repair of esophageal hiatal hernia (Vansant), 911

stab wounds studied by injection of contrast media (Carter and Sawyers), 597

Abnormalities associated with neonatal duodenal obstruction (Young and Wilkinson), 832

Acidosis, hyperchloremic, from urethrorectal fistula and imperforate anus (Tank and Watts), 837

lactic, experimental, isoproterenol and cardiac response to (Silberschmid et al.), 181

Adaptor, cannula, Thomas, for collection of pancreatic secretion (Rudick and Dreiling), 683

Adhesions, left iliac vein (Ellis and Del Rosario), 166

intraperitoneal, factors influencing incidence (Conolly and Stephens), 976

Adhesive, tissue, degradation of n-butyl alpha cyanoacrylate. II (Pani et al.), 481

Adjuvant action, local, of hemoglobin in experimental *E. coli* peritonitis; pathogenesis of peritonitis (Simmons, Diggs, and Sleeman), 810

Adrenal cyst (Cerise and Hammon), 903

Allografts, irradiated heterotopic segmental canine pancreatic (Merkel et al.), 291

renal, in dogs: effects of postoperative management on survival (Halasz), 954

Alpha cyanoacrylate, n-butyl, tissue adhesive, degradation of. II (Pani et al.), 481

Alterations, postperfusion compartmental fluid (Neville and Talso), 220

Amputations, lower extremity, for ischemia, survey (Warren and Kihn), 107

Amylase, serum, elevated; significance (Adams, Libertino, and Schwartz), 877

Anaerobic organisms encountered in surgical infections: Bacteroidacea (Saksena et al.), 261

Anastomosis, colorectal, and duodenal closure, experimental and clinical experience in: everting suture of bowel (Buyers and Meier), 475

of common bile duct, experimental (Klopper, Kelly, and Vos), 459

intrathoracic esophageal, protection by omentum (Goldsmith, Kiely, and Randall), 464

Aneurysm, distal hepatic artery, successful resection with graft reconstruction of hepatic arteries (Danielson et al.), 722

Aneurysms, aortic, abdominal, surgical treatment (May et al.), 711

Anoxic liver, hypotension following revascularization of: factors influencing its occurrence and prevention (Buckberg et al.), 446

Antibacterial therapy, topical, status in treatment of burns (Moncrief), 862

Antibody response, cytotoxic, kidney homotransplantation with special reference to (Yamada and Kay), 637

Antigens, subcellular splenic, canine renal homografts after pretreatment with (Zimmerman et al.), 437

Antral gastrin in dog, role of vagus nerve in release (Molina et al.), 467

Anus, imperforate, and urethrorectal fistula, hyperchloremic acidosis from (Tank and Watts), 837

Aorta, iliac, and femoral arteries: autograft replacement of: eversion endarterectomy (Connolly, Stemmer, and Doering), 128

Aortas, human, normal and atherosclerotic, electrokinetic characteristics (Sawyer, Seto, and Srinivasan), 822

Aortic aneurysms, abdominal, surgical treatment (May et al.), 711

ball valve function, improvement by flow guidance (Viggers et al.), 52

homograft structure and function, factors modifying (Harris et al.), 45

valves, simplified insertion, with nonthrombogenic prosthetic frames (Braunwald, Fuchs, and Bonchek), 38

valve, homograft replacement (Ross), 382

Aortoiliac endarterectomy, postoperative complications: incidence, cause, and prevention (Buckberg, Henney, and Cannon), 121

*January, pp. 1-228; February, pp. 229-390; March, pp. 391-548; April, pp. 549-710; May, pp. 711-876; June, pp. 877-1074.

Arterial grafting, future, subcutaneous implantation of varicose veins for (Gaylis), 591
hepatic, and portal venous flow, hemodynamics (Shafey and Hassab), 962
hypoxia, importance: fat embolism (Wertzberger and Peltier), 626
injuries, review of 85 major traumatic (Dillard, Nelson, and Norman), 391
segments, homologous, sterilization and preservation, with special reference to heart valves (Rob), 875
Arteriography, use in diagnosis of origin of acute gastrointestinal hemorrhage in children (Ternberg and Koehler), 686
Arteriosclerosis, effects of hydrogen peroxide on: experimental observations (Urschel et al.), 1
Arteriovenous fistula, complications induced for augmentation of limb growth (Breslau), 1012
use in chronic dialysis: modified surgical technique (Salomon et al.), 899
Artery(ies) aneurysm, hepatic, distal, successful resection with graft reconstruction of hepatic arteries (Danielson et al.), 722
coronary, preservation of myocardial viability by diastolic augmentation after ligation, in dogs (Goldfarb et al.), 320
distal, tibial bypass, with autogenous vein grafts: analysis of 56 cases (Garrett et al.), 90
iliac and femoral, and aorta, autograft replacement: eversion endarterectomy (Connolly, Stemmer, and Doering), 128
ligation, coronary, experimental, use of vital dyes to predict survival after (Cherry and Myers), 929
profunda femoris, reconstruction (Sproul), 871
renal, failure of low molecular weight dextran and mannitol to preserve renal function after bilateral occlusion (Stremple et al.), 766
trifurcation, popliteal, lateral approach to (Danese and Singer), 588
Atherosclerotic and normal human aortas, electrokinetic characteristics (Sawyer, Seto, and Srinivasan), 822
Atresia, esophageal, and tracheoesophageal fistula, gastric division in critically ill infant with (Randolph, Tunell, and Lilly), 496
Atrial pacing, rapid, to produce transient heart block: preliminary report (Imperato, Reppert, and Spencer), 198
Augmentation, diastolic, after ligation of coronary artery in dogs, preservation of myocardial viability by (Goldfarb et al.), 320
Autogenous vein grafts, distal tibial artery bypass with: analysis of 56 cases (Garrett et al.), 90
Autograft replacement of aorta, iliac, and femoral arteries: eversion endarterectomy (Connolly, Stemmer, and Doering), 128

B

Bacterial infections, treatment with hyperbaric oxygen (Irvin and Smith), 363
Bacteroidaceae: anaerobic organisms encountered in surgical infections (Saksena et al.), 261
Baffle, Ivalon, for posterior leaflet replacement in treatment of mitral insufficiency (Barnard and Schrire), 727
Balance, fluid and electrolyte, in penetrating head wounds (Pitlyk and Moss), 396
Ball valve function, aortic, improvement by flow guidance (Viggers et al.), 52
Bezoar, intestinal, unusual complication: Rapunzel syndrome (Vaughan, Sawyers, and Scott), 339
Bile duct, common, experimental anastomoses (Klopper, Kelly, and Vos), 459
Bilharzial cirrhosis, gastroesophageal decongestion and splenectomy in treatment of esophageal varices secondary to (Hassab, Younis, and El-Kilany), 731
Biliary tree, sarcoma botryoides (Soper and Dunphy), 1005
Biopsy, muscle, elective, technique for, in infants and children (Talbert, Hartmann, and Haller), 344
Bladder, neurogenic, operative management in children: diversion through intestinal conduits (Cook, Lister, and Zachary), 855
Blood flow, liver, and cardiac output, electromagnetic measurement in conscious dogs during feeding and exercise (Hopkinson and Schenk), 970
and ultrastructural changes in rejecting and nonrejecting canine orthotopic liver homografts (Groth et al.), 658
loss, major, metabolism of lactate following (Trinkle, Rush, and Eiseman), 782
or plasma, diluted, hypothermic, perfusion of kidneys with: three-day kidney preservation (Humphries et al.), 646
Blunt injuries to liver, resection in treatment (Aronsen et al.), 236
Botryoides, sarcoma, of biliary tree (Soper and Dunphy), 1005
Bowel, everting suture: experimental and clinical experience in duodenal closure and colorectal anastomosis (Buyers and Meier), 475

Buffered glucose solutions, reduction of infusion thrombophlebitis with (Fonkalsrud et al.), 280
Burns, complication of silver nitrate treatment: methemoglobinemia (Ternberg and Luce), 328
early excision of large areas in (Artz and Thompson), 868
status of topical antibacterial therapy in treatment (Moncrief), 862
Bypass, distal tibial artery, with autogenous vein grafts: analysis of 56 cases (Garrett et al.), 90
total cardiopulmonary, clinical experiences with hemodilution in: analysis of 650 patients (Taguchi et al.), 252

C

Cancer, gastric, improvement in end-results of surgical treatment (Muto et al.), 229
Cannula adaptor, Thomas, for collection of pancreatic secretion (Rudick and Dreiling), 683
Cardiac catheterization, pre- and postoperative, in 200 patients undergoing closure of ventricular septal defects (Lillehei et al.), 69
massage and assistance, substernal (Johnson, Prisk, and Whitney), 800
operations, new method for maintenance of induced ventricular fibrillation during (Reis, Pierce, and Morrow), 210
output, effects of inferior vena caval ligation on (Maraan and Taber), 966
and liver blood flow, electromagnetic measurement in conscious dogs during feeding and exercise (Hopkinson and Schenk), 970
pacemakers, device for creation of stable splice for electrodes (Hairston et al.), 1039
response, and isoproterenol, to experimental lactic acidosis (Silberschmid et al.), 181
valve replacement in children (Bloodwell, Hallman, and Cooley), 77
Cardiopulmonary bypass, total, clinical experiences with hemodilution in: analysis of 650 patients (Taguchi et al.), 252
disease; prevention of hypoxic complications during endotracheal suctioning (Berman and Stahl), 586
Carotid surgery, safeguards in (Galbraith), 1019
Catheterization, pre- and postoperative cardiac, in 200 patients undergoing closure of ventricular septal defects (Lillehei et al.), 69
transfemoral and transaortic, complication rates (Haut and Amplatz), 594
Caudal duplication (dipygus), operative correction (Rowe, Ravitch, and Ranniger), 840
Cell population, parietal, gastric secretion, and ulcer provocation of dog, effect of prolonged inhibition of 11 β-hydroxylase on (Van Nostrand and Nicoloff), 301
Cellular damage associated with extracorporeal perfusion: plasminogen activation and lysosomal enzyme activity (Tice and Worth), 669
Cerebrospinal fluid hypertension, hypercapnic (Dos, Landé, and Lillehei), 788
Cervical esophagus, duplications in infants and children (Gans, Lackey, and Zuckerbraun), 849
pheochromocytoma, report, and literature review of extra-adrenal pheochromocytoma (Fries and Chamberlin), 268
Cholangiographic interpretation, physiologic basis: pseudocalculus sign and problem of duct spasm (Beneventano and Schein), 673
Cholecystitis, chronic: experience in large charity institution (De Marco, Nance, and Cohn), 750
Choledochoduodenostomy, side-to-side, technique (Barner), 1037
Cirrhosis, bilharzial, gastroesophageal decongestion and splenectomy in treatment of esophageal varices secondary to (Hassab, Younis, and El-Kilany), 731
metabolism of zinc-65 in (Kahn et al.), 678
Closure, duodenal, and colorectal anastomosis, experimental and clinical experience in: everting suture of bowel (Buyers and Meier), 475
of ventricular septal defects, pre- and postoperative cardiac catheterization in 200 patients undergoing (Lillehei et al.), 69
Cold, historical accounts of injuries due to (Schechter and Sarot), 527
Colon and distal ileum, tubular duplication (Soper), 998
Colorectal anastomosis, and duodenal closure, experimental and clinical experience in: everting suture of bowel (Buyers and Meier), 475
Compartmental fluid alterations, postperfusion (Neville and Talso), 220
Complication(s), postoperative, of aortoiliac endarterectomy: incidence, cause, and prevention (Buckberg, Henney, and Cannon), 121
intussusception as (McGovern and Gross), 507

Complication(s)—Cont'd
of silver nitrate treatment of burns: methemoglobinemia (Ternberg and Luce), 328
unusual, of intestinal bezoar: Rapunzel syndrome (Vaughan, Sawyers, and Scott), 339
Conduits, intestinal, diversion through: operative management of neurogenic bladder in children (Cook, Lister, and Zachary), 825
Confederate surgeon, Henry L. Dye, journal (Elsas), 352
Congenital gastric and duodenal obstruction, combined: pitfalls in diagnosis and treatment (Haller and Cahill), 503
Coronary artery, preservation of myocardial viability by diastolic augmentation after ligation, in dogs (Goldfarb et al.), 320
ligation, experimental, use of vital dyes to predict survival after (Cherry and Myers), 929
Correction, operative, of caudal duplication (dipygus) (Rowe, Ravitch, and Ranniger), 840
Cryptorchism and testicular tumorigenesis (Johnson et al.), 919
Cyanoacrylate, n-butyl alpha, tissue adhesive, degradation. II (Pani et al.), 481
Cyst, adrenal (Cerise and Hammon), 903
Cytotoxic antibody response, kidney homotransplantation with special reference to (Yamada and Kay), 637

D

Dangers of escalation (Eiseman), 388
Decongestion, gastroesophageal, and splenectomy in treatment of esophageal varices secondary to bilharzial cirrhosis (Hassab, Younis, and El-Kilany), 731
Defects, ventricular septal, pre- and postoperative cardiac catheterization in 200 patients undergoing closure (Lillehei et al.), 69
Degradation of n-butyl alpha cyanoacrylate tissue adhesive. II (Pani et al.), 481
Depression, secretory, gastric, factors influencing, in acutely hypercarbic rats (Breen et al.), 816
Dextran, low molecular weight, and hyperbaric oxygen, combined use in treatment of experimental hemorrhagic shock (Navarro and Ferguson), 775
and mannitol, failure to preserve renal function after bilateral occlusion of renal arteries (Stremple et al.), 766
Diagnosis, accurate, of inguinal hernia in infants, radiologic aid for: inguinal herniogram (White, Parks, and Haller), 991
Diagnosis—Cont'd
and treatment, pitfalls in: combined congenital gastric and duodenal obstruction (Haller and Cahill), 503
Dialysis, chronic, use of arteriovenous fistula in: modified surgical technique (Salomon et al.), 899
Diastolic augmentation after ligation of coronary artery in dogs, preservation of myocardial viability by (Goldfarb et al.), 320
Dipygus (caudal duplication), operative correction (Rowe, Ravitch, and Ranniger), 840
Discharge of patients from hospital, early postoperative (Lahti), 410
Disease, gallbladder, in infants and children (Graivier, Dorman, and Votteler), 690
Schimmelbusch's, and Curt Schimmelbusch (Dalton and Grözinger), 859
Distal tibial artery bypass with autogenous vein grafts: analysis of 56 cases (Garrett et al.), 90
Diversion through intestinal conduits: operative management of neurogenic bladder in children (Cook, Lister, and Zachary), 825
Drainage, thoracic duct, in treatment of portal hypertension, critical assessment of rationale (Warren, Fomon, and Leite), 7
Duct, common bile, experimental anastomoses (Klopper, Kelly, and Vos), 459
spasm, pseudocalculus sign and problem: physiologic basis of cholangiographic interpretation (Beneventano and Schein), 673
thoracic, drainage in treatment of portal hypertension, critical assessment of rationale (Warren, Fomon, and Leite), 7
Dumping syndrome, and serotonin: reappraisal (Jesseph), 536
Duodenal closure and colorectal anastomosis, experimental and clinical experience in: everting suture of bowel (Buyers and Meier), 475
and gastric, obstruction, combined congenital: pitfalls in diagnosis and treatment (Haller and Cahill), 503
obstruction, neonatal, abnormalities associated with (Young and Wilkinson), 832
ulcer, perforated, acute, safe and desirable operation for; vagotomy and pyloroplasty (Hamilton), 1045
Duodenum, mobilization of: surgical maneuver incorrectly credited to Kocher (Madden, Kandalaft, and Eghrari), 522
Duplication, caudal (dipygus), operative correction (Rowe, Ravitch, and Ranniger), 840

Duplications of cervical esophagus in infants and children (Gans, Lackey, and Zuckerbraun), 849
Dye, Henry L., Confederate surgeon, journal (Elsas), 352
Dyes, vital, use to predict survival after experimental coronary artery ligation (Cherry and Myers), 929

E

E. coli peritonitis, experimental, local adjuvant action of hemoglobin in; pathogenesis of peritonitis (Simmons, Diggs, and Sleeman), 810
Electrodes of cardiac pacemakers, device for creation of stable splice for (Hairston et al.) 1039
Electrokinetic characteristics of normal and atherosclerotic human aortas (Sawyer, Seto, and Srinivasan), 822
Electrolyte, and fluid, balance in penetrating head wounds (Pitlyk and Moss), 396
Electromagnetic measurement of liver blood flow and cardiac output in conscious dogs during feeding and exercise (Hopkinson and Schenk), 970
Embolism, fat: importance of arterial hypoxia (Wertzberger and Peltier), 626
  pulmonary, effect on pulmonary surfactant (Wolfe and Sabiston), 312
Endarterectomy, aortoiliac, postoperative complications: incidence, cause, and prevention (Buckberg, Henney, and Cannon, 121
  eversion: autograft replacement of aorta, iliac, and femoral arteries (Connolly, Stemmer, and Doering), 128
Endotoxin administration, effect on canine lung function (Cahill, Jouasset-Streider, and Byrne), 980
  effects on tissue metabolism, in vivo and in vitro (Rush and Hsieh), 298
  shock, interstitial fluid pressure changes in (Anas, Neely, and Hardy, 938
Endotracheal suctioning, prevention of hypoxic complications during (Berman and Stahl), 586
Enzyme activity, lysosomal, and plasminogen activation: cellular damage associated with extracorporeal perfusion (Tice and Worth), 699
Eponym; Curt Schimmelbusch and Schimmelbusch's disease (Dalton and Grözinger), 859
Escalation, dangers (Eiseman), 388
Esophageal anastomoses, intrathoracic, protection by omentum (Goldsmith, Kiely, and Randall), 464
Esophageal—Cont'd
  atresia and tracheoesophageal fistula, gastric division in critically ill infant with (Randolph, Tunell, and Lilly), 496
  hiatal hernia, abdominal repair (Vansant), 911
  varices secondary to bilharzial cirrhosis, gastroesophageal decongestion and splenectomy in treatment (Hassab, Younis, and El-Kilany), 731
Esophagus, cervical, duplications in infants and children (Gans, Lackey, and Zuckerbraun), 849
Evaluation, in vivo and in vitro, of new nongraphited heparinized surfaces (Gott et al.), 60
Eversion endarterectomy: autograft replacement of aorta, iliac, and femoral arteries (Connolly, Stemmer, and Doering), 128
Everting suture of bowel: experimental and clinical experience in duodenal closure and colorectal anastomosis (Buyers and Meier), 475
Excision, early, of large areas in burns (Artz and Thompson), 868
Extra-adrenal pheochromocytoma: literature review and report of cervical pheochromocytoma (Fries and Chamberlin), 268
Extracorporeal perfusion, cellular damage associated with: plasminogen activation and lysosomal enzyme activity (Tice and Worth), 669
  portosystemic shunt for portal hypertension (White, Slapak, and MacLean), 17
Extremity, lower, amputations for ischemia, survey (Warren and Kihn), 107

F

Family of surgical patient (Baudry and Wiener), 416
Fascia, transversalis, for repair of inguinal hernia, double layer: results in 104 cases (Moran, Blick, and Collura), 423
Fat embolism: importance of arterial hypoxia (Wertzberger and Peltier), 626
Femoral, iliac arteries, and aorta, autograft replacement: eversion endarterectomy (Connolly, Stemmer, and Doering), 128
Femoris artery, profunda, reconstruction (Sproul), 871
Fibrillation, induced ventricular, during cardiac operations, new method for maintenance (Reis, Pierce, and Morrow), 210
Fibroid polyps, inflammatory, ileal intussusception in adult due to (Kerr and Mark), 604

Fistula, arteriovenous, complications induced for augmentation of limb growth (Breslau), 1012
use in chronic dialysis: modified surgical technique (Salomon et al.), 899
tracheoesophageal, and esophageal atresia, gastric division in critically ill infant with (Randolph, Tunell, and Lilly), 496
urethrorectal, and imperforate anus, hyperchloremic acidosis from (Tank and Watts), 837
Flow guidance, improvement of aortic ball valve function by (Viggers et al.), 52
hepatic arterial and portal venous, hemodynamics (Shafey and Hassab), 962
liver blood, and cardiac output, electromagnetic measurement in conscious dogs during feeding and exercise (Hopkinson and Schenk), 970
Fluid alterations, postperfusion compartmental (Neville and Talso), 220
cerebrospinal, hypercapnic; hypertension (Dos, Landé, and Lillehei), 788
and electrolyte balance in penetrating head wounds (Pitlyk and Moss), 396
interstitial, pressure changes in endotoxin shock, (Anas, Neely, and Hardy), 938
Frames, nonthrombogenic prosthetic, simplified insertion of aortic homograft valves with (Braunwald, Fuchs, and Bonchek), 38
Function, aortic ball valve, improvement by flow guidance (Viggers et al.), 52
and structure, aortic homograft, factors modifying (Harris et al.), 45
Fusion, splenogonadal (Watson), 853

G

Gallbladder disease in infants and children (Graivier, Dorman, and Votteler), 690
function in dog following subtotal gastric resection or vagotomy and pyloroplasty (Loeb and Nicoloff), 806
Gastric cancer, improvement in end-results of surgical treatment (Muto et al.) 229
division in critically ill infant with esophageal atresia and tracheoesophageal fistula (Randolph, Tunell, and Lilly), 496
and duodenal obstruction, combined congenital: pitfalls in diagnosis and treatment (Haller and Cahill), 503
resection, subtotal, or vagotomy and pyloroplasty, gallbladder function in dog following (Loeb and Nicoloff), 806
secretion, ulcer provocation, and parietal cell population of dog, effect of prolonged inhibition of 11 β-hydroxylase on (Van Nostrand and Nicoloff), 301
Secretion—Cont'd
secretory depression, factors influencing, in acutely hypercarbic rats (Breen et al.), 816
ulcer: appraisal (Kukral), 1024
Gastrin, antral, role of vagus nerve in release (Molina et al.), 467
Gastroesophageal decongestion and splenectomy in treatment of esophageal varices secondary to bilharzial cirrhosis (Hassab, Younis, and El-Kilany), 731
Gastrointestinal hemorrhage, acute, use of arteriography in diagnosis of origin, in children (Ternberg and Koehler), 686
Gastroschisis (Dénes, Léb, and Lukács), 701
rectus muscle transection for visceral replacement in (Lafer), 988
Glucose solutions, buffered, reduction of infusion thrombophlebitis with (Fonkalsrud et al.), 280
Graduated vascular occluder (Ferrier), 539
Graft(s), autogenous vein, distal tibial artery bypass with: analysis of 56 cases (Garrett et al.), 90
kidney homotransplantation, with special reference to cytotoxic antibody response (Yamada and Kay), 637
reconstruction of hepatic arteries, successful resection of distal hepatic artery aneurysm with (Danielson et al.), 722
Grafting, arterial, future, subcutaneous implantation of varicose veins for (Gaylis), 591
Growth, limb, complications of arteriovenous fistula induced for augmentation (Breslau), 1012
Guidance, flow, improvement of aortic ball valve function by (Viggers et al.), 52

H

Head wounds, penetrating, fluid and electrolyte balance in (Pitlyk and Moss), 396
Heart block, transient, rapid atrial pacing to produce: preliminary report (Imparato, Reppert, and Spencer), 198
valves, with special reference to, in sterilization and preservation of homologous arterial segments (Rob), 875
Hemodilution in total cardiopulmonary bypass, clinical experiences with: analysis of 650 patients (Taguchi et al.), 252
Hemodynamic events, sequence after various types of hemorrhage (Monson and Shoemaker), 738
Hemodynamics of hepatic arterial and portal venous flow (Shafey and Hassab), 962
Hemoglobin, local adjuvant action in experimental *E. coli* peritonitis: pathogenesis of peritonitis (Simmons, Diggs, and Sleeman), 810

Hemorrhage, gastrointestinal, acute, use of arteriography in diagnosis of origin, in children (Ternberg and Koehler), 686
sequence of hemodynamic events after various types (Monson and Shoemaker), 738
variceal, arrest, and uneventful delivery, emergency mesocaval shunt performed during pregnancy, followed by (Jochimsen and Castaneda), 601
Hemorrhagic shock, experimental, treatment by combined use of hyperbaric oxygen and low molecular weight dextran (Navarro and Ferguson), 775
Henry L. Dye, Confederate surgeon, journal (Elsas), 352
Heparinized surfaces, nongraphited, in vivo and in vitro evaluation (Gott et al.), 60
Hepatic arterial and portal venous flow, hemodynamics (Shafey and Hassab), 962
artery aneurysm, distal, successful resection with graft reconstruction of hepatic arteries (Danielson et al.), 722
Hepatography with oily contrast medium injected via portal vein system (Lee), 948
Hernia, hiatal, esophageal, abdominal repair (Vansant), 911
hiatus, and pyloric hypertrophy in adult (Bodon and Haake), 430
inguinal, double layer of transversalis fascia for repair: results in 104 cases (Moran, Blick, and Collura), 423
radiologic aid for accurate diagnosis in infants: inguinal herniogram (White, Parks, and Haller), 991
Herniogram, inguinal, radiologic aid for accurate diagnosis of inguinal hernia in infants (White, Parks, and Haller), 991
Heterotopic segmental canine pancreatic allografts, irradiated (Merkel et al.), 291
Hiatal hernia, esophageal, abdominal repair (Vansant), 911
Hiatus hernia and pyloric hypertrophy in adult (Bodon and Haake), 430
Hirschsprung's disease, surgical treatment (San Luis, Nemoto, and Beardmore), 331
Historical accounts of injuries due to cold (Schechter and Sarot), 527
Homograft(s), aortic, structure and function, factors modifying (Harris et al.), 45
canine renal, after pretreatment with subcellular splenic antigens (Zimmerman et al.), 437
ischemia, effect upon serum proteins after orthotopic liver transplantation (Kashiwagi et al.), 247
liver, orthotopic, blood flow and ultrastructural changes in rejecting and nonrejecting canine (Groth et al.), 658
Homograft(s)—Cont'd
replacement of aortic valve (Ross), 382
valves, aortic, simplified insertion with nonthrombogenic prosthetic frames (Braunwald, Fuchs, and Bonchek), 38
Homologous arterial segments, sterilization and preservation, with special reference to heart valves (Rob), 875
Homotransplantation, kidney, with special reference to cytotoxic antibody response (Yamada and Kay), 637
orthotopic, of human liver, extended survival in 3 cases (Starzl et al.), 549
Hydrogen peroxide, effects, on arteriosclerosis: experimental observations (Urschel et al.), 1
intravascular, and hyperbaric oxygen, comparison of effects on tissue oxygenation (Ackerman and Brinkley), 285
β-Hydroxylase, 11, effect of prolonged inhibition on gastric secretion, ulcer provocation, and parietal cell population of dog (Van Nostrand and Nicoloff), 301
Hyperbaric oxygen and intravascular hydrogen peroxide, comparison of effects on tissue oxygenation (Ackerman and Brinkley), 285
and low molecular weight dextran, combined use in treatment of experimental hemorrhagic shock (Navarro and Ferguson), 775
treatment of bacterial infections with (Irvin and Smith), 363
Hypercapnic cerebrospinal fluid hypertension (Dos, Landé, and Lillehei), 788
Hypercarbic rats, acutely, factors influencing gastric secretory depression in (Breen et al.), 816
Hyperchloremic acidosis from urethrorectal fistula and imperforate anus (Tank and Watts), 837
Hypercoagulable state (DeCamp, Carrera, and Ochsner), 173
Hypertension of hypercapnic cerebrospinal fluid (Dos, Landé, and Lillehei), 788
portal, extracorporeal portosystemic shunt for (White, Slapak, and MacLean), 17
management in children (Ferguson), 1042
thoracic duct drainage in treatment, critical assessment of rationale (Warren, Fomon, and Leite), 7
pulmonary, review of some experimental and clinical observations on (Muller), 142
Hypertrophy, pyloric, and hiatus hernia, in adult (Bodon and Haake), 430
Hypotension following revascularization of anoxic liver: factors influencing its occurrence and prevention (Buckberg et al.), 446

Hypothermic, diluted blood or plasma, perfusion of kidneys with: three-day kidney preservation (Humphries et al.), 646
Hypoxia, arterial, importance: fat embolism (Wertzberger and Peltier), 626
Hypoxic complications, prevention during endotracheal suctioning (Berman and Stahl), 586

I

Ileal intussusception in adult due to inflammatory fibroid polyps (Kerr and Mark), 604
Ileum, distal, and colon, tubular duplication (Soper), 998
Iliac, femoral arteries, and aorta, autograft replacement: eversion endarterectomy (Connolly, Stemmer, and Doering), 128
vein, left, adhesions (Ellis and Del Rosario), 166
Imperforate anus and urethrorectal fistula, hyperchloremic acidosis from (Tank and Watts), 837
Implantation, subcutaneous, of varicose veins for future arterial grafting (Gaylis), 591
Implanted standby pacemakers, clinical experience with (Parsonnet et al.), 188
Infection(s), bacterial, treatment with hyperbaric oxygen (Irvin and Smith), 363
125 consecutive cases without: technique of minor surgery (Menendez), 890
surgical, anaerobic organism encountered in: Bacteriodaceae (Saksena et al.), 261
wound, and technique, clinical application of experimental relations between (Ferguson), 377
Infusion thrombophlebitis, reduction with buffered glucose solutions (Fonkalsrud et al.), 280
Inguinal hernia, double layer of transversalis fascia for repair: results on 104 cases (Moran, Blick, and Collura), 423
herniogram: radiologic aid for accurate diagnosis of inguinal hernia in infants (White, Parks, and Haller), 991
Innervation, vagal, role on pancreatic secretion (Govaerts and Kiekens), 942
Insufficiency, mitral, Ivalon baffle for posterior leaflet replacement in treatment (Barnard and Schrire), 727
Interstitial fluid pressure changes in endotoxin shock (Anas, Neely, and Hardy), 938
Intestinal bezoar, unusual complication: Rapunzel syndrome (Vaughan, Sawyers, and Scott), 339
conduits, diversion through: operative management of neurogenic bladder in children (Cook, Lister, and Zachary), 825
Intestinal—Cont'd
tube, indwelling long, and metastatic malignant mesenchymoma, intussusceptions due to: unique aspects of small-intestinal intussusception in infants and children (Touloukian and DeLuca), 346
Insertion, simplified, of aortic homograft valves with nonthrombogenic prosthetic frames (Braunwald, Fuchs, and Bonchek), 38
Intrahepatic vascular response to nylidrin HCl (Geumei and Mahfouz), 306
Intraperitoneal adhesions, factors influencing incidence (Conolly and Stephens), 976
Intrathoracic esophageal anastomoses, protection by omentum (Goldsmith, Kiely, and Randall), 464
Intrauterine thymectomy, technique of in rabbit (Kisken and Swenson), 546
Intravascular hydrogen peroxide, and hyperbaric oxygen, comparison of effects on tissue oxygenation (Ackerman and Brinkley), 285
Intussusception(s) due to metastatic malignant mesenchymoma and indwelling long intestinal tube: unique aspects of small-intestinal intussusception in infants and children (Touloukian and DeLuca), 346
ileal, in adult due to inflammatory fibroid polyps (Kerr and Mark), 604
as postoperative complication (McGovern and Gross), 507
small-intestinal, unique aspects in infants and children: intussusceptions due to metastatic malignant mesenchymoma and indwelling long intestinal tube (Touloukian and DeLuca), 346
Irradiated heterotopic segmental canine pancreatic allografts (Merkel et al.), 291
Irriga-Bag: variation on theme of ostomy appliance (Jascalevich), 764
Ischemia, homograft, effect upon serum proteins, after orthotopic liver transplantation (Kashiwagi et al.), 247
survey of lower extremity amputations for (Warren and Kihn), 107
Isoproterenol and cardiac response to experimental lactic acidosis (Silberschmid et al.), 181
Ivalon baffle for posterior leaflet replacement in treatment of mitral insufficiency (Barnard and Schrire), 727

J

Journal of Henry L. Dye, Confederate surgeon (Elsas), 352

K

Kidney homotransplantation with special reference to cytotoxic antibody response (Yamada and Kay), 637
preservation, three-day: perfusion of kidneys with hypothermic, diluted blood or plasma (Humphries et al.), 646
Kocher, surgical maneuver incorrectly credited to: mobilization of duodenum (Madden, Kandalaft, and Eghrari), 522

L

Lactate, metabolism, following major blood loss (Trinkle, Rush, and Eiseman), 782
Lactic acidosis, experimental, isoproterenol and cardiac response to (Silberschmid et al.), 181
Leaflet, posterior, Ivalon baffle for replacement in treatment of mitral insufficiency (Barnard and Schrire), 727
Ligation, artery, coronary, experimental, use of vital dyes to predict survival after (Cherry and Myers), 929
of coronary artery in dogs, preservation of myocardial viability by diastolic augmentation after (Goldfarb et al.), 320
inferior vena caval, effects on cardiac output (Maraan and Taber), 966
Limb growth, complications of arteriovenous fistula induced for augmentation (Breslau), 1012
Literature review and report of cervical pheochromocytoma: extra-adrenal pheochromocytoma (Fries and Chamberlin), 268
Liver, anoxic, hypotension following revascularization: factors influencing its occurrence and prevention (Buckberg et al.), 446
blood flow and cardiac output, electromagnetic measurement in conscious dogs during feeding and exercise (Hopkinson and Schenk), 970
cirrhosis, metabolism of zinc-65 in (Kahn et al.), 678
gastroesophageal decongestion and splenectomy in treatment of esophageal varices secondary to bilharzial cirrhosis (Hassab, Younis, and El-Kilany), 731
homografts, orthotopic, blood flow and ultrastructural changes in rejecting and nonrejecting canine (Groth et al.), 658
human, orthotopic homotransplantation, extended survival in 3 cases (Starzl et al.), 549
opacification following lymphangiography: pathogenesis and clinical significance (Chavez, Picard, and Davis), 564
Liver—Cont'd
preservation: unperfused cold storage and continuous cold perfusion (Mieny and Eiseman), 923
resection in treatment of blunt injuries to (Aronsen et al.), 236
transplantation, orthotopic, effect of homograft ischemia upon serum proteins after (Kashiwagi et al.) 247
Lung function, canine, effect of endotoxin administration on (Cahill, Jouasset-Strieder, and Byrne), 980
Lymphangiography, liver opacification following: pathogenesis and clinical significance (Chavez, Picard, and Davis), 564
Lysosomal enzyme activity and plasminogen activation: cellular damage associated with extracorporeal perfusion (Tice and Worth), 669

M

Malignant mesenchymoma, metastatic, and indwelling long intestinal tube, intussusceptions due to: unique aspects of small-intestinal intussusception in infants and children (Touloukian and DeLuca), 346
Management of portal hypertension in children (Ferguson), 1042
postoperative, effects on survival: renal allografts in dogs (Halasz), 954
Mannitol and low molecular weight dextran, failure to preserve renal function after bilateral occlusion of renal arteries (Stremple et al.), 766
Massage and assistance, cardiac, substernal (Johnson, Prisk, and Whitney), 800
Masses, abdominal, in children under one year of age (Raffensperger and Abousleiman), 514
Measurement, electromagnetic, of liver blood flow and cardiac output in conscious dogs during feeding and exercise (Hopkinson and Schenk), 970
of small structures, device for: micro-mike (Jacobson), 917
Media, contrast, injection, abdominal stab wounds studied by (Carter and Sawyers), 597
Medium, contrast, oily, injected via portal vein system, in hepatography (Lee), 948
Mesenchymoma, metastatic malignant, and indwelling long intestinal tube, intussusceptions due to: unique aspects of small-intestinal intussusception in infants and children (Touloukian and DeLuca), 346

Mesocaval shunt, emergency, performed during pregnancy, followed by arrest of variceal hemorrhage and uneventful delivery (Jochimsen and Castaneda), 601
Metabolism of lactate following major blood loss (Trinkle, Rush, and Eiseman), 782
shock (Schumer and Kukral), 630
tissue, effects of endotoxin on, in vivo and in vitro (Rush and Hsieh), 298
of zinc-65 in cirrhosis (Kahn et al.), 678
Metastatic malignant mesenchymoma and indwelling long intestinal tube, intussusceptions due to: unique aspects of small-intestinal intussusception in infants and children (Touloukian and DeLuca), 346
Methemoglobinemia: complication of silver nitrate treatment of burns (Ternberg and Luce), 328
Method, new, for maintenance of induced ventricular fibrillation during cardiac operations (Reis, Pierce, and Morrow), 210
Micro-mike: device for measurement of small structures (Jacobson), 917
Microsurgical techniques, renal transplantation in rats with (Daniller, Buchholz, and Chase), 956
Mitral insufficiency, Ivalon baffle for posterior leaflet replacement in treatment (Barnard and Schrire), 727
Mobilization of duodenum: surgical maneuver incorrectly credited to Kocher (Madden, Kandalaft, and Eghrari), 522
Multifocal subperitoneal sclerosis (Black, Nelson, and Walker), 706
Muscle biopsy, elective, technique for in infants and children (Talbert, Hartmann, and Haller), 344
rectus, transection for visceral replacement in gastroschisis (Lafer), 988
Myocardial viability, preservation by diastolic augmentation after ligation of coronary artery in dogs (Goldfarb et al.), 320

N

N-butyl alpha cyanoacrylate tissue adhesive, degradation. II (Pani et al.), 481
Neonatal duodenal obstruction, abnormalities associated with (Young and Wilkinson), 832
Nerve, vagus, role in release of antral gastrin in dog (Molina et al.), 467
Neurogenic bladder in children, operative management: diversion through intestinal conduits (Cook, Lister, and Zachary), 825
Nitrate, silver, treatment of burns, complication: methemoglobinemia (Ternberg and Luce), 328
Nongraphited heparinized surfaces, in vivo and in vitro evaluation (Gott et al.), 60
Nonthrombogenic prosthetic frames, simplified insertion of aortic homograft valves with (Braunwald, Fuchs, and Bonchek), 38
Nylidrin HCl, intrahepatic vascular response to (Geumei and Mahfouz), 306

O

Obstruction, combined congenital gastric and duodenal: pitfalls in diagnosis and treatment (Haller and Cahill), 503
duodenal, neonatal, abnormalities associated with (Young and Wilkinson), 832
subclavian vein, intermittent, without thrombosis (Adams et al.), 147
Occluder, graduated vascular (Ferrier), 539
Occlusion, bilateral, of renal arteries, failure of low molecular weight dextran and mannitol to preserve renal function after (Stremple et al.), 766
Omentum, protection of intrathoracic esophageal anastomoses by (Goldsmith, Kiely, and Randall), 464
Opacification, liver, following lymphangiography: pathogenesis and clinical significance (Chavez, Picard, and Davis), 564
Orthotopic homotransplantation of human liver, extended survival in 3 cases (Starzl et al.), 549
liver homografts, blood flow and ultrastructural changes in rejecting and nonrejecting canine (Groth et al.), 658
transplantation, effect of homograft ischemia upon serum proteins after (Kashiwagi et al.), 247
Osteophytes of vertebral column in abdomen, compression of sympathetic trunk by (Nathan), 609
Ostomy appliance, variation on theme: Irriga-Bag (Jascalevich), 764
Oxygen, hyperbaric, and intravascular hydrogen peroxide, comparison of effects on tissue oxygenation (Ackerman and Brinkley), 285
and low molecular weight dextran, combined use in treatment of experimental hemorrhagic shock (Navarro and Ferguson), 775
treatment of bacterial infections with (Irvin and Smith), 363
Oxygenation, tissue, comparison of effects of hyperbaric oxygen and intravascular hydrogen peroxide on (Ackerman and Brinkley), 285

P

Pacemakers, cardiac, device for creation of stable splice for electrodes (Hairston et al.), 1039
implanted standby, clinical experience with (Parsonnet et al.), 188
Pacing, rapid atrial, to produce transient heart block: a preliminary report (Imparato, Reppert, and Spencer), 198
Pancreas, head, disruption, caused by blunt trauma in children: report of two cases treated with primary repair of pancreatic duct (Martin, Henderson, and Welsh), 697
Pancreatic allografts, irradiated heterotopic segmental canine (Merkel et al.), 291
duct, report of two cases treated with primary repair: disruption of head of pancreas caused by blunt trauma in children (Martin, Henderson, and Welsh), 697
secretion, role of vagal innervation on (Govaerts and Kiekens), 942
Thomas cannula adaptor for collection (Rudick and Dreiling), 683
Pancreatitis, chronic, splenoportographic changes in (Rignault, Mine, and Moine), 571
Parietal cell population, gastric secretion, and ulcer provocation of dog, effect of prolonged inhibition of 11 β-hydroxylase on (Van Nostrand and Nicoloff), 301
Pathogenesis and clinical significance: liver opacification following lymphangiography (Chavez, Picard, and Davis), 564
of peritonitis; local adjuvant action of hemoglobin in experimental *E. coli* peritonitis (Simmons, Diggs, and Sleeman), 810
Peptic ulcer, perforated (Burdette and Rasmussen), 576
Perforated duodenal ulcer, acute, safe and desirable operation for; vagotomy and pyloroplasty (Hamilton), 1045
Perfusion, cold, continuous, and unperfused cold storage: liver preservation (Mieny and Eiseman), 923
extracorporeal, cellular damage associated with: plasminogen activation and lysosomal enzyme activity (Tice and Worth), 669
of kidneys with hypothermic, diluted blood or plasma: three-day kidney preservation (Humphries et al.), 646
Peritonitis, pathogenesis; local adjuvant action of hemoglobin in experimental *E. coli* peritonitis (Simmons, Diggs, and Sleeman), 810
Peroxide, hydrogen, effects on arteriosclerosis: experimental observations (Urschel et al.), 1
Pheochromocytoma, cervical, report and literature review of extra-adrenal (Fries and Chamberlin), 268
Physiologic basis of cholangiographic interpretation: pseudocalculus sign and problem of duct spasm (Beneventano and Schein), 673
Plasma or blood, diluted, hypothermic, perfusion of kidneys with: three-day kidney preservation (Humphries et al.), 646
Plasminogen activation and lysosomal enzyme activity: cellular damage associated with extracorporeal perfusion (Tice and Worth), 669
Polyps, fibroid, inflammatory, ileal intussusception in adult due to (Kerr and Mark), 604
Popliteal artery trifurcation, lateral approach to (Danese and Singer), 588
Portal hypertension, extracorporeal portosystemic shunt for (White, Slapak, and MacLean), 17
management in children (Ferguson), 1042
thoracic duct drainage in treatment, critical assessment of rationale (Warren, Fomon, and Leite), 7
vein system, hepatography with oily contrast medium injected via (Lee), 948
venous and hepatic arterial flow, hemodynamics (Shafey and Hassab), 962
Portarenal transposition, technique for in dogs (Ono et al.), 653
Portosystemic shunt, extracorporeal, for portal hypertension (White, Slapak, and MacLean), 17
Postperfusion compartmental fluid alterations (Neville and Talso), 220
Pregnancy, emergency mesocaval shunt performed during, followed by arrest of variceal hemorrhage and uneventful delivery (Jochimsen and Castaneda), 601
Preoperative preparation of surgical patient (Baudry and Wiener), 885
Preservation, liver: unperfused cold storage and continuous cold perfusion (Mieny and Eiseman), 923
and sterilization of homologous arterial segments, with special reference to heart valves (Rob), 875
Pressure, intersitial fluid, changes in endotoxin shock (Anas, Neely, and Hardy), 938
Pretibial skin loss, management (Ger), 757
Profunda femoris artery, reconstruction (Sproul), 871
Prosthetic frames, nonthrombogenic, simplified insertion of aortic homograft valves with (Braunwald, Fuchs, and Bonchek), 38
Proteins, serum, effect of homograft ischemia upon, after orthotopic liver transplantation (Kashiwagi et al.), 247

Pseudocalculus sign and problem of duct spasm: physiologic basis of cholangiographic interpretation (Beneventano and Schein), 673
Pulmonary embolism, effect on pulmonary surfactant (Wolfe and Sabiston), 312
hypertension, review of some experimental and clinical observations on (Muller), 142
surfactant, effect of pulmonary embolism on (Wolfe and Sabiston), 312
Pulsatile pump, new, controlled by roller system Eguchi and Asano), 490
Pump, new pulsatile, controlled by roller system (Eguchi and Asano), 490
Pyloric hypertrophy, and hiatus hernia, in adult (Bodon and Haake), 430
Pyloroplasty and vagotomy, safe and desirable operation for acute perforated duodenal ulcer (Hamilton), 1045
or subtotal gastric resection, gallbladder function in dog following (Loeb and Nicoloff), 806

R

Radiologic aid for accurate diagnosis of inguinal hernia in infants: inguinal herniogram (White, Parks, and Haller), 991
Rapunzel syndrome: unusual complication of intestinal bezoar (Vaughan, Sawyers, and Scott), 339
Reconstruction, graft, hepatic arteries, successful resection of distal hepatic artery aneurysm with (Danielson et al.), 722
of profunda femoris artery (Sproul), 871
Rectus muscle transection for visceral replacement in gastroschisis (Lafer), 988
Renal allografts in dogs: effects of postoperative management on survival (Halasz), 954
function, failure of low molecular weight dextran and mannitol to preserve, after bilateral occlusion of renal arteries (Stremple et al.), 766
homografts, canine, after pretreatment with subcellular splenic antigens (Zimmerman et al.), 437
transplantation in rats with microsurgical techniques (Daniller, Buchholz, and Chase), 956
Repair, abdominal, of esophageal hiatal hernia (Vansant), 911
primary, pancreatic duct, report of two cases treated with: disruption of head of pancreas caused by blunt trauma in children (Martin, Henderson, and Welsh), 697
Replacement, autograft, of aorta, iliac, and femoral arteries: eversion endarterectomy (Conolly, Stemmer, and Doering), 128
Replacement—Cont'd
cardiac valve, in children (Bloodwell, Hallman, and Cooley), 77
homograft, of aortic valve (Ross), 382
Research, and clinical, uses of reopened adult umbilical vein (Piccone, Bonanno, and LeVeen), 29
Resection, gastric, subtotal, or vagotomy and pyloroplasty, gallbladder function in dog following (Loeb and Nicoloff), 806
liver, in treatment of blunt injuries to liver (Aronsen et al.), 236
successful, of distal hepatic artery aneurysm with graft reconstruction of hepatic arteries (Danielson et al.), 722
Response, cardiac, and isoproterenol, to experimental lactic acidosis (Silberschmid et al.), 181
Revascularization of anoxic liver, hypotension following: factors influencing its occurrence and prevention (Buckberg et al.), 446
Roller system, new pulsatile pump controlled by (Eguchi and Asano), 490

S

Sarcoma botryoides of biliary tree (Soper and Dunphy), 1005
Schimmelbusch, Curt, and Schimmelbusch's disease (Dalton and Grözinger), 859
Sclerosis, subperitoneal, multifocal (Black, Nelson, and Walker), 706
Secretion, gastric, ulcer provocation, and parietal cell population of dog, effect of prolonged inhibition of 11 β-hydroxylase on (Van Nostrand and Nicoloff), 301
pancreatic, role of vagal innervation on (Govaerts and Kiekens), 942
Thomas cannula adaptor for collection (Rudick and Dreiling), 683
Secretory depression, gastric, factors influencing, in acutely hypercarbic rats (Breen et al.), 816
Segmental canine pancreatic allografts, irradiated heterotopic (Merkel et al.), 291
Septal defects, ventricular, closure, pre- and postoperative cardiac catheterization in 200 patients undergoing (Lillehei et al.), 69
Serotonin and dumping syndrome: reappraisal (Jesseph), 536
Serum amylase, elevated, significance (Adams, Libertino, and Schwartz), 877
proteins, effect of homograft ischemia upon, after orthotopic liver transplantation (Kashiwagi et al.), 247
Shock, endotoxin, interstitial fluid pressure changes in (Anas, Neely, and Hardy), 938

Shock—Cont'd
hemorrhagic, experimental, treatment by combined use of hyperbaric oxygen and low molecular weight dextran (Navarro and Ferguson), 775
metabolism (Schumer and Kukral), 630
Shunt, extracorporeal portosystemic, for portal hypertension (White, Slapak, and MacLean), 17
mesocaval, emergency, performed during pregnancy, followed by arrest of variceal hemorrhage and uneventful delivery (Jochimsen and Castaneda), 601
Silver nitrate treatment of burns, complication: methemoglobinemia (Ternberg and Luce), 328
Skin loss, pretibial, management (Ger), 757
Small-intestinal intussusception in infants and children, unique aspects: intussusceptions due to metastatic malignant mesenchymoma and indwelling long intestinal tube (Touloukian and DeLuca), 346
Spasm, duct, pseudocalculus sign and problem: physiologic basis of cholangiographic interpretation (Beneventano and Schein), 673
Splenectomy and gastroesophageal decongestion in treatment of esophageal varices secondary to bilharzial cirrhosis (Hassab, Younis, and El-Kilany), 731
Splenic antigens, subcellular, canine renal homografts after pretreatment with (Zimmerman et al.), 437
Splenogonadal fusion (Watson), 853
Splenoportographic changes in chronic pancreatitis (Rignault, Mine, and Moine), 571
Splice, stable, device for creation for electrodes of cardiac pacemakers (Hairston et al.), 1039
Stab wounds, abdominal, studied by injection of contrast media (Carter and Sawyers), 597
Sterilization and preservation of homologous arterial segments, with special reference to heart valves (Rob), 875
Storage, cold, unperfused, and continuous cold perfusion: liver preservation (Mieny and Eiseman), 923
Structure and function, aortic homograft, factors modifying (Harris et al.), 45
Subcellular splenic antigens, canine renal homografts after pretreatment with (Zimmerman et al.), 437
Subclavian vein obstruction, intermittent, without thrombosis (Adams et al.), 147
Subcutaneous implantation of varicose veins for future arterial grafting (Gaylis), 591
Subperitoneal sclerosis, multifocal (Black, Nelson, and Walker), 706
Substernal cardiac massage and assistance (Johnson, Prisk, and Whitney), 800
Suctioning, endotracheal, prevention of hypoxic complications during (Berman and Stahl), 586
Surfactant, pulmonary, effect of pulmonary embolism on (Wolfe and Sabiston), 312
Surgeon, Confederate, Henry L. Dye, journal (Elsas), 352
Surgery, minor, technique: 125 consecutive cases without infection (Menendez), 890
Surgical patient, preoperative preparation (Baudry and Wiener), 885
technique, modified: use of arteriovenous fistula in chronic dialysis (Salomon et al.), 899
treatment of abdominal aortic aneurysms (May et al.), 711
Survey of lower extremity amputations for eschemia (Warren and Kiha), 107
Suture of bowel, everting: experimental and clinical experience in duodenal closure and colorectal anastomosis (Buyers and Meier), 475
and tie, training board (Boyle and Gius), 434
Sympathetic trunk, compression, by oseteophytes of vertebral column in abdomen (Nathan), 609
Syndrome, dumping, and serotonin: reappraisal (Jesseph), 536
Rapunzel: unusual complication of intestinal bezoar (Vaughan, Sawyers, and Scott), 339

T

Technique(s) for elective muscle biopsy in infants and children (Talbert, Hartmann, and Haller), 344
of intrauterine thymectomy in rabbit (Kisken and Swenson), 546
microsurgical, renal transplantation in rats with (Daniller, Buchholz, and Chase), 956
of minor surgery: 125 consecutive cases without infection (Menendez), 890
of side-to-side choledochoduodenostomy (Barner), 1037
surgical, modified: use of arteriovenous fistula in chronic dialysis (Salomon et al.), 899
and wound infection, clinical application of experimental relations between (Ferguson), 377
Temperature, historical accounts of injuries due to cold (Schechter and Sarot), 527
Therapy, antibacterial, topical, status in treatment of burns (Moncrief), 862

Testicular tumorigenesis and cryptorchism (Johnson et al.), 919

Thomas cannula adaptor for collection of pancreatic secretion (Rudick and Dreiling), 683

Thoracic duct drainage in treatment of portal hypertension, critical assessment of rationale (Warren, Fomon, and Leite), 7

Thrombophlebitis, infusion, reduction with buffered glucose solutions (Fonkalsrud et al.), 280

Thrombosis, intermittent subclavian vein obstruction without (Adams et al.), 147

Thymectomy, intrauterine, technique in rabbit (Kisken and Swenson), 546

Tibial artery bypass, distal, with autogenous vein grafts: analysis of 56 cases (Garrett et al.), 90

Tie and suture training board (Boyle and Gius), 434

Tissue adhesive, degradation of n-butyl alpha cyanoacrylate. II (Pani et al.), 481

metabolism, effects of endotoxin on, in vivo and in vitro (Rush and Hsieh), 298

oxygenation, comparison of effects of hyperbaric oxygen and intravascular hydrogen peroxide on (Ackerman and Brinkley), 285

Topical antibacterial therapy, status in treatment of burns (Moncrief), 862

Tracheoesophageal fistula, and esophageal atresia, gastric division in critically ill infant with (Randolph, Tunell, and Lilly), 496

Training board, tie and suture (Boyle and Gius), 434

Transaortic and transfemoral catheterization, complication rates (Haut and Amplatz), 594

Transection, rectus muscle, for visceral replacement in gastroschisis (Lafer), 988

Transfemoral and transaortic catheterization, complication rates (Haut and Amplatz), 594

Transplantation, orthotopic liver, effect of homograft ischemia upon serum proteins after (Kashiwagi et al.), 247

renal, with microsurgical techniques, in rats (Daniller, Buchholz, and Chase), 956

Transposition, portarenal, technique for, in dogs (Ono et al.), 653

Transversalis fascia for repair of inguinal hernia, double layer: results in 104 cases (Moran, Blick, and Collura), 423

Trauma, blunt, in children, disruption of head of pancreas caused by: report of two cases treated with primary repair of pancreatic duct (Martin, Henderson, and Welsh), 697

Treatment of burns, status of topical antibacterial therapy in (Moncrief), 862

esophageal varices secondary to bilharzial cirrhosis, gastroesophageal decongestion and splenectomy in (Hassab, Younis, and El-Kilany), 731

experimental hemorrhagic shock by combined use of hyperbaric oxygen and low molecular weight dextran (Navarro and Ferguson), 775

mitral insufficiency, Ivalon baffle for posterior leaflet replacement in (Barnard and Schrire), 727

surgical, of abdominal aortic aneurysms (May et al.), 711

Trifurcation, artery, popliteal, lateral approach to (Danese and Singer), 588

Trunk, sympathetic, compression by osteophytes of vertebral column in abdomen (Nathan), 609

Tubular duplication of colon and distal ileum (Soper), 998

Tumorigenesis, testicular, and cryptorchism (Johnson et al.), 919

U

Ulcer, duodenal, perforated, acute, safe and desirable operation for; vagotomy and pyloroplasty (Hamilton), 1045

gastric: appraisal (Kukral), 1024

peptic, perforated (Burdette and Rasmussen), 576

provocation, gastric secretion, and parietal cell population of dog, effect of prolonged inhibition of 11 β-hydroxylase on (Van Nostrand and Nicoloff), 301

Ultrastructural changes and blood flow in rejecting and nonrejecting canine orthotopic liver homografts (Groth et al.), 658

Umbilical vein, reopened adult, clinical and research uses (Piccone, Bonanno, and LeVeen), 29

Urethrorectal fistula and imperforate anus, hyperchloremic acidosis from (Tank and Watts), 837

V

Vagal innervation, role, on pancreatic secretion (Govaerts and Kiekens), 942

Vagotomy and pyloroplasty, safe and desirable operation for acute perforated duodenal ulcer (Hamilton), 1045

Vagotomy and pyloroplasty—Cont'd
or subtotal gastric resection, gallbladder function in dog following (Loeb and Nicoloff), 806
Vagus nerve, role, in release of antral gastrin in dog (Molina et al.), 467
Valve(s), aortic, homograft replacement (Ross), 382
simplified insertion, with nonthrombogenic prosthetic frames (Braunwald, Fuchs, and Bonchek), 38
function, aortic ball, improvement by flow guidance (Viggers et al.), 52
heart, with special reference to, in sterilization and preservation of homologous arterial segments (Rob), 875
replacement, cardiac, in children (Bloodwell, Hallman, and Cooley), 77
Variceal hemorrhage, arrest, and uneventful delivery, emergency mesocaval shunt performed during pregnancy, followed by (Jochimsen and Cantaneda), 601
Varices, esophageal, secondary to bilharzial cirrhosis, gastroesophageal decongestion and splenectomy in treatment (Hassab, Younis, and El-Kilany), 731
Varicose veins, subcutaneous implantation for future arterial grafting (Gaylis), 591
Vascular occluder, graduated (Ferrier), 539
response, intrahepatic, to nylidrin HCl (Geumei and Mahfouz), 306
Vein(s) grafts, autogenous, distal tibial artery bypass with: analysis of 56 cases (Garrett et al.), 90
left iliac adhesions (Ellis and Del Rosario), 166
obstruction, subclavian, intermittent, without thrombosis (Adams et al.), 147
system, portal, hepatography with oily contrast medium injected via (Lee), 948
Vein(s)—Cont'd
umbilical, reopened adult, clinical and research uses (Piccone, Bonanno, and LeVeen), 29
varicose, subcutaneous implantation for future arterial grafting (Gaylis), 591
Vena caval, inferior, ligation, effects on cardiac output (Maraan and Taber), 966
Venous, portal, and hepatic arterial flow, hemodynamics (Shafey and Hassab), 962
Ventricular fibrillation, induced during cardiac operations, new method for maintenance (Reis, Pierce, and Morrow), 210
septal defects, closure, pre- and postoperative cardiac catheterization in 200 patients undergoing (Lillehei et al.), 69
Vertebral column, compression of sympathetic trunk by osteophytes, in abdomen (Nathan), 609
Viability, myocardial, preservation by diastolic augmentation after ligation of coronary artery in dogs (Goldfarb et al.), 320
Visceral replacement in gastroschisis, rectus muscle transection for (Lafer), 988

W

Wound infection, and technique, clinical application of experimental relations between (Ferguson), 377
Wounds, stab, abdominal, studied by injection of contrast media (Carter and Sawyers), 597

Z

Zinc-65, metabolism in cirrhosis (Kahn et al.), 678

SUBJECT INDEX*

A

Abdominal aorta, posttraumatic aneurysm, with recurrent emboli to superior mesenteric artery: case report (Smith et al.), 736

aortic aneurysm, complication of excision; paraplegia (Coupland and Reeve), 878

intra-, vascular injury (Perdue and Smith), 562

Absorption, fat, small intestinal, clinical implication of segmental differences in (Gump and Barker), 509

Academic surgical arena, past and present: tribute to Evarts Graham, great surgical leader and innovator (Wangensteen), 595

Acalculous cholecystitis, acute (Hilton and Griffin), 1047

Achlorhydria, experimental: techniques of production with parietal cell antibody (Walder), 175

Acid ribonucleic, perfusion, effect on canine kidney and liver homograft survival (Groth et al.), 31

secretion, gastric, blood sugar levels in vagal stimulation of, in normal and diabetic dogs, on critical nature (Kemp et al.), 958

-base status, effects of acute changes, on coronary blood flow (Greenburg and Kittle), 315

Actinomycosis of lung and chest wall (McQuarrie and Hall), 905

Acupuncture, multiple transmyocardial, as method of myocardial revascularization, further studies in (Sen et al.), 861

Adenocarcinoma, primary esophageal: report of 16 cases (Lortat-Jacob et al.), 535

Adrenal vein catheterization, differential, to localize aldosteronomas preoperatively, unilateral adrenalectomy for (Egdahl, Kahn, and Melby), 117

Adrenalectomy, unilateral, for aldosteronomas localized preoperatively by differential adrenal vein catheterization (Egdahl, Kahn, and Melby), 117

Adrenergic, alpha-, blockade, central venous pressure and blood volume determinations after, in experimental posthemorrhagic shock in dogs (Ranganathan and Phillips), 1140

Agglutination of established cell lines of human leukocytes by human transplantation sera (McDonald), 48

Aldosterone hypersecretion and central venous pressure, reduced, with increased plasma volume, stimulus, in man: phenoxybenzamine-induced vasodilatation (Skillman et al.), 368

Aldosteronomas localized preoperatively by differential adrenal vein catheterization, unilateral adrenalectomy for (Egdahl, Kahn, and Melby), 117

Allograft(s), pancreatic, simple test to assess viability: in vitro insulin productivity of preserved pancreas (Idezuki et al.), 940

renal, canine, rejection, by passive transfer of sensitized serum (Dubernard et al.), 752

immunologic enhancement, in rat (Stuart et al.), 17

rejection, by portacaval transposition and renal artery stenosis in dogs, protection against hypertension due to (Schwartz), 1092

sensitized rejection, in dogs after long function of first renal allografts. Preliminary communication (Sheil and Murray), 954

skin, survival, enhancement, in man (Rapaport et al.), 25

Allotransplantation, renal, simultaneous bilateral nephrectomy and, for bilateral Wilms' tumor (deLorimier et al.), 850

Aluminum suture, effect, on wound healing: long-term comparative study on tensile strength and hydroxyproline content (Wu, Chopra, and Sawyer), 605

Anastomosis, aortic, growth: experimental study in piglets (Tawes, Aberdeen, and Berry), 1122

esophagogastric, and gastrectomy, neonatal gastric necrosis and perforation treated by (Rees and Redo), 472

primary side-to-side colorectal, in Duhamel operation for Hirschsprung's disease (Steichen, Talbert, and Ravitch), 475

*July, pp. 1-358; August, pp. 359-528; September, pp. 529-700; October, pp. 701-860; November, pp. 861-1012; December, pp. 1013-1204.

Anchor technique for stay sutures (Goodrich), 416
Anesthesia, electro-, physiologic effects (Larson and Sances), 281
Aneursym, abdominal aortic, complication of excision: paraplegia (Coupland and Reeve), 878
of hepatic artery: value of arteriography in surgical management (Weaver, Fleming, and Barnes), 891
posttraumatic of abdominal aorta with recurrent emboli to superior mesenteric artery: case report (Smith et al.), 736
right ventricular, and ventricular septal defect caused by nonpenetrating cardiac trauma, repair (Stinson, Rowles, and Shumway), 1022
Angiographic contrast medium, small bowel injury by (Sewell, Killen, and Foster), 459
Angiography, contrast, influence of mannitol on toxic reactions to (Snyder, Killen, and Foster), 640
Anomalies, congenital anorectal, familial incidence (Cozzi and Wilkinson), 669
Anorectal anomalies, congenital, familial incidence (Cozzi and Wilkinson), 669
Antibody, parietal cell, techniques of production with: experimental achlorhydria (Walder), 175
against human malignant melanoma by immunofluorescence, demonstration (Morton et al.), 233
production, to synthetic human gastrin I and radioimmunoassay of gastrin in serum of patients with Zollinger-Ellison syndrome (Stremple and Meade), 165
-producing and antigen-sensitive cells, differential effect of heterologous antilymphocyte serum (Möller and Zukoski), 39
Antigen-sensitive and antibody-producing cells, differential effect of heterologous antilymphocyte serum (Möller and Zukoski), 39
Antilymphocyte serum, heterologous: differential effect on antigen-sensitive and antibody-producing cells (Möller and Zukoski), 39
Aorta, abdominal, posttraumatic aneurysm, with recurrent emboli to superior mesenteric artery: case report (Smith et al.), 736
Aortic abdominal aneurysm, complication of excision: paraplegia (Coupland and Reeve), 878
anastomosis, growth: experimental study in piglets (Tawes, Aberdeen, and Berry), 1122
occluder, new atraumatic (Conn, Trippel, and Bergan), 1158
Aortic—Cont'd
resections, operative mortality rate (Sanger et al.), 359
valve homotransplantation without cardiopulmonary bypass, experimental (Barnes, Mohri, and Merendino), 647
Aortoiliac lesion, solitary (Staple), 569
Appendectomy: ligation of appendiceal stump without cauterization (Getzen), 514
Appendiceal stump, ligation, without cauterization: appendectomy (Getzen), 514
Arm, deep veins, thrombosis (Coon and Willis), 990
Arterial bleeding, effect of external counterpressure (Wangensteen et al.), 922
hemorrhage, hydrodynamics (Wangensteen, Eddy, and Ludewig), 912
intra-, infusion, intermittent, for cancer: simple, inexpensive, outpatient method for prolonged regional chemotherapy (Rush, Rowe, and Humphrey), 901
reconstructive surgery, blood flow after, measured by implanted electromagnetic flow probes (Renwick et al.), 544
patches, modified bovine heterografts for (Wimberly, Lewis, and Dale), 433
Arteries, leaks in, tested by experimental ex vivo preparation and external counterpressure, kinetics of fluid loss from (Eddy, Wangensteen, and Ludewig), 451
Arteriography in surgical management, value: aneurysm of hepatic artery (Weaver, Fleming, and Barnes), 891
Arteriolar, intestinal, resistance and critical closing pressure during endotoxin shock, effect of celiac blockade on (Hauman), 785
Arteriovenous shunts, massive pulmonary: hypoxic hyperventilation and acute respiratory failure in severely stressed patient (Border, Tibbetts, and Schenk), 710
Artery, hepatic, aneurysm: value of arteriography in surgical management (Weaver, Fleming, and Barnes), 891
renal, stenosis in dogs, protection against hypertension due to renal allograft rejection by portacaval transposition and (Schwartz), 1092
Aspiration pneumonia, prevention by continuous esophageal aspiration during esophagogastric tamponade and gastric cooling (Edlich et al.), 405
Atresia, colon, and Hirschsprung's disease (Hyde and deLorimier), 976
intestinal, experimental (Abrams), 185
various patterns (Spencer), 661
Avian bursa of Fabricius, mammalian homologue. I (Perey, Cooper, and Good), 614

B

Bacteria in hemorrhagic pancreatitis, role (Williams and Byrne), 967

Bacteriological evaluation of surgical scrubbing with disposable iodophor-soap impregnated polyurethane scrub sponges (Bornside, Crowder, and Cohn), 743

Bacteriology, epidemiology and, clean wound infections (Snider), 728

"Bends," new look, role of gas embolism in decompression sickness (Heimbecker et al.), 264

Benign and malignant sacrococcygeal teratomas (Donnellan and Swenson), 834

Bilateral renal vein thrombosis and nephrotic syndrome, treatment (Cohn et al.), 387

Bile collection technique in unanesthetized dog (Britt, Estes, and Schapiro), 443

Biliary tract, urinary tract, and spinal canal, small-caliber fiberscope for visualization (Takagi et al.), 1033

Biochemical changes associated with experimental endotoxemia, evaluation: II. lactic dehydrogenase activity (Sleeman et al.), 622

Biocidal sutures, suppression of experimental wound infections (LeVeen et al.), 610

Birth, experimental pulmonary stenosis created at (Frater et al.), 322

Bleeding, arterial, effect of external counterpressure on (Wangensteen et al.), 922

massive, in newborn infant from gastric ulcer associated with hypertrophic pyloric stenosis (Kelsey et al.), 979

Block, energy pathway, in shock, localization (Schumer), 55

lymphatic, surgical approaches to (Danese et al.), 821

Blockade, alpha-adrenergic, central venous pressure and blood volume determinations after, in experimental posthemorrhagic shock in dogs (Ranganathan and Phillips), 1140

celiac, effect, on intestinal arteriolar resistance and critical closing pressure during endotoxin shock (Hauman), 785

Blood, calf venous, studies of sterility (Barnes, Mohri, and Merendino), 797

flow after reconstructive arterial surgery measured by implanted electromagnetic flow probes (Renwick et al.), 544

coronary, effects of acute changes in acid-base status (Greenburg and Kittle), 315

pressure monitoring, continuous disposable apparatus for (Ramsey), 1161

Blood—Cont'd

replacement and hemorrhage with and without hypotension, interstitial fluid pressure changes during (Hopkinson et al), 68

sugar levels in vagal stimulation of gastric acid secretion in normal and diabetic dogs, on critical nature (Kemp et al.), 958

transfusion, history: tercentennial look (Hutchin), 685

vessel, canine, effect of thrombotic and antithrombotic drugs on surface charge characteristics: in vivo and in vitro studies (Srinivasan et al.), 827

volume, central venous pressure and, determinations after alpha-adrenergic blockade in experimental posthemorrhagic shock in dogs (Ranganathan and Phillips), 1140

during experiments not associated with blood loss, single injection technique for frequent evaluation of (Stetz et al.), 1106

whole, cholesterol concentration and cholesterol synthesis, effect of ileal bypass versus ileal excision on, in rabbit (Buchwald et al.), 126

Boutonnière deformity, operative treatment (Kilgore and Graham), 999

Bovine heterografts, modified, for arterial patches (Wimberly, Lewis, and Dale), 433

Bowel, small, injury by angiographic contrast medium (Sewell, Killen, and Foster), 459

rapid transit, with abnormal metabolic response to glucose in presence (Stemmer et al.), 192

resection: importance of gallbladder's reservoir function (Jordan, Olson, and Paige), 446

Brain, production of lactate and pyruvate by: accumulation of lactate and pyruvate in recycling circulation of isolated brain (White et al.), 60

tumor, neonatal, treated by surgery and postoperative radiotherapy (Weiss and Raskind), 503

Bursa of Fabricius, avian, mammalian homologue. I (Perey, Cooper, and Good), 614

Bypass, cardiopulmonary, experimental aortic valve homotransplantation without (Barnes, Mohri, and Merendino), 647

evidence for impaired reticuloendothelial function, in rats, I. effect of extracorporeal circulation on reticuloendothelial function (Subramanian, McLeod, and Gans), 775

simple means of estimating the amount of pump flow in (Colt), 1001

Bypass—Cont'd
ileal, versus ileal excision, effect on cholesterol synthesis and whole blood cholesterol concentration in rabbit (Buchwald et at.), 126

C

Cancer: benign and malignant sacrococcygeal teratomas (Donnellan and Swenson), 834
demonstration of antibodies against human malignant melanoma by immunofluorescence (Morton et al.), 233
intermittent intra-arterial infusion for: simple, inexpensive, outpatient method for prolonged regional chemotherapy (Rush, Rowe, and Humphrey), 901
malignant melanoma: appraisal (Stehlin), 1149
primary esophageal adenocarcinoma: report of 16 cases (Lortat-Jacob et al.), 535
suitability of donor kidneys from patients with (Muiznieks et al.), 871
Cardiac surgery, filtering device for prevention of particulate embolization during (Fadali et al.), 634
trauma, nonpenetrating, repair of right ventricular aneurysm and ventricular septal defect caused by (Stinson, Rowles, and Shumway), 1022
Cardiopulmonary bypass, experimental aortic valve homotransplantation without (Barnes, Mohri, and Merendino), 647
evidence for impaired reticuloendothelial function following, in rats. I. effect of extracorporeal circulation on reticuloendothelial function (Subramanian, McLeod, and Gans), 775
simple means of estimating amount of pump flow in (Colt), 1001
reimplantation staged en masse, in dogs (Yacoubian, Slim, and Simonian), 418
Carotid sinus mechanism: regulation of venous capacity (Dow and Fry), 346
Catheter, intravascular, magnetically controlled (Alksne), 339
Catheterization, differential adrenal vein, unilateral adrenalectomy for aldosteronomas localized preoperatively by (Egdahl, Kahn, and Melby), 117
percutaneous transjugular, of renal veins (Killen), 1053
transumbilical portal vein, studies in man by: regulation of insulin secretion by intestinal hormone, secretion (White and Dupré, 204
Celiac blockade, effect, on intestinal arteriolar resistance and critical closing pressure during endotoxin shock (Hauman), 785
Cell(s) antibody, parietal, techniques of production with: experimental achlorhydria (Walder), 175
antigen-sensitive and antibody-producing, differential effect of heterologous antilymphocyte serum (Möller and Zukoski), 39
cultured human tumor, in patients with malignancy, immunologic response following homologous transplantation (Mendoza et al.), 897
lines, established, agglutination of human leukocytes by human transplantation sera (McDonald), 48
Cerebral lesions as cause of esophageal ulceration (Edmondson, Gindin, and Peebles), 720
Cervical vagectomy, effect on esophageal function in monkey (Binder et al.), 1075
Chemotherapy, prolonged regional, simple, inexpensive, outpatient method for: intermittent intra-arterial infusion for cancer (Rush, Rowe, and Humphrey), 901
Chest wall and lung, actinomycosis, (McQuarrie and Hall), 905
Choliangiography, operative, technical aid to (Kramer), 403
Cholecystitis, acute acalculous (Hilton and Griffin), 1047
gangrenous acalculous, in infancy: report of case (Lucas and Walt), 847
Choledochoduodenal junction stenosis in postcholecystectomy syndrome (Schein and Beneventano), 1039
Cholesterol, synthesis and whole blood concentration, effect of ileal bypass versus ileal excision on, in rabbit (Buchwald et al.), 126
Circulation, extracorporeal, effect, on reticuloendothelial function. I. Experimental evidence for impaired reticuloendothelial function following cardiopulmonary bypass in rats (Subramanian, McLeod, and Gans), 775
recycling, of isolated brain in accumulation of lactate and pyruvate: production of lactate and pyruvate by brain (White et al.), 60
Collagen during wound healing, studies on biology: rate of synthesis and deposition in cutaneous wound of rat (Madden and Peacock), 288
Colon atresia and Hirschsprung's disease (Hyde and deLorimier), 976
Colorectal anastomosis, primary side-to-side, in Duhamel operation for Hirschsprung's disease (Steichen, Talbert, and Ravitch), 475

Committee, conference, on graduate education in surgery (Holden), 506
Computer, digital, measurement and monitoring of acutely ill patients by (Osborn et al.), 1057
Conference committee on graduate education in surgery (Holden), 506
Confraternity of St. Cosmas in evolution of French surgery, role (Schechter), 1002
Congenital anorectal anomalies, familial incidence (Cozzi and Wilkinson), 669
Coronary blood flow, effects of acute changes in acid-base status (Greenburg and Kittle), 315
  perfusion line, simple and safe: gravity and overflow system (Eguchi, Matsuzawa, and Asano), 554
Corticosteroids, effect on experimental fat embolism in rat (Wertzberger and Peltier), 143
Cosmas, St., Confraternity of, role, in evolution of French surgery (Schechter), 1002
Cross-arm nerve pedicle flap for reconstruction of major defects of median nerve (Edgerton), 248
Crossover femoropopliteal shunt (Goetz and Lord), 681
Cryoprecipitate, use, in surgical treatment of spontaneous rupture of spleen in hemophilia patient (Gowda, Vietti, and Ternberg), 1119
Curriculum and general surgeon (Hardy), 577
Cutaneous, microorganisms, location (Pecora, Landis, and Martin), 1114
  wounds, rate of collagen synthesis and deposition, in rat: studies on biology of collagen during wound healing (Madden and Peacock), 288
Cysts, splenic, in children (McNamara et al.), 487

D

Decompression sickness, role of gas embolism in new look at "the bends" (Heimbecker et al.), 264
Defects, major, of median nerve, cross-arm nerve pedicle flap for reconstruction (Edgerton), 248
Deformity, boutonnière, operative treatment (Kilgore and Graham), 999
Dehydrogenase, lactic, activity, II: evaluation of biochemical changes associated with experimental endotoxemia (Sleeman et al.), 622
Delirium tremens in surgical patients (Glickman and Herbsman), 882
Diabetic dogs, normal and, on critical nature of blood sugar levels in vagal stimulation of gastric acid secretion in (Kemp et al.), 958
Dialysis, peritoneal, in treatment of acute pancreatitis (Bolooki and Gliedman), 466
Diaphragm, eventration (McNamara et al.), 1013
Diaphragmatic hernia, traumatic (Pomerantz, Rodgers, and Sabiston), 529
Digital computer, measurement and monitoring of acutely ill patients by (Osborn et al.), 1057
  flexion, method for measuring work in chicken's foot: effect of sutures, immobilizations, and tenolysis on healing of tendons (Craver, Madden, and Peacock), 437
Disease, Hirschsprung's, colon atresia and (Hyde and deLorimier), 976
Diuresis, mannitol-induced in hydropenic men (Berger, Evers, and Mueller, 381
Doppler ultrasound and clinical evaluation, of comparison, confirmed lower extremity venous disease (Sigel et al.), 332
Drug(s)-induced hypotension, uncontrolled hemorrhage in (Milles, Roesel, and Strelka), 801
  thrombotic and antithrombotic, effect, on surface charge characteristics of canine blood vessels: in vivo and in vitro studies (Srinivasan et al.), 827
Duct, thoracic, subclavian vein junction, nature and significance (Bradham and Takaro), 643
Duhamel operation for Hirschsprung's disease, primary side-to-side colorectal anastomosis in (Steichen, Talbert, and Ravitch), 475
Dumping syndrome, metabolic response to glucose in presence of rapid small bowel transit (Stemmer et al.), 192
Duodenoscopy: aid for investigation of complete duodenum (Miller), 558
Duodenum, complete, aid for investigation: duodenoscopy (Miller), 558

E

Education: general surgeon and curriculum (Hardy), 577
  surgery versus specialty training at graduate level (Blakemore), 582
  graduate, in surgery, conference committee on (Holden), 506
  medical, role of surgical specialties in (Harrison, Quigley, and Taylor), 587
  undergraduate surgical elective programs: early evaluation (Polk and Zeppa), 295
    at Utah: innovation and evaluation (Maxwell et al.), 302
Elective programs in undergraduate surgical education: early evaluation (Polk and Zeppa), 295

Electroanesthesia, physiologic effects (Larson and Sances), 281
Electrolyte absorption, peritoneal: analysis of portal, systemic venous, and lymphatic transport (Kraft, Tompkins, and Jesseph), 148
Electromagnetic flow probes, implanted, blood flow after reconstructive arterial surgery measured by (Renwick et al.), 544
Electrometric surface hydrogen ion activity of ischemic liver and heart, effect of storage temperature on (Couch and Middleton), 1099
Emboli, recurrent to superior mesenteric artery, posttraumatic aneurysm of abdominal aorta with: case report (Smith et al.), 736
Embolism, fat: effect of corticosteroids on experimental fat embolism in rat (Wertzberger and Peltier), 143
gas, role, in decompression sickness, new look at "the bends" (Heimbecker et al.), 264
Embolization, particulate, filtering device for prevention, during course of cardiac surgery (Fadali et al.), 634
Endotoxemia, experimental, evaluation of biochemical changes associated with: II. lactic dehydrogenase activity (Sleeman et al.), 622
Endotoxin shock, effect of celiac blockade on intestinal arteriolar resistance and critical closing pressure during (Hauman), 785
-induced tolerance for hemorrhagic shock, metabolic factors associated with (Drucker, Schlatter, and Drucker), 75
Enema, operative, use, in intestinal obstruction of newborn infant (Krasna, Becker, and Schneider), 856
Energy pathway block in shock, localization (Schumer), 55
Engineering approach to training of surgical scientists (Blesser et al.), 226
Enteroanastomoses, anatomical side-to-side and functional end-to-end, use of staplers in (Steichen), 948
Epidemiology and bacteriology: clean wound infections (Snider), 728
Esophageal adenocarcinoma, primary: report of 16 cases (Lortat-Jacob et al.), 535
aspiration, continuous, during esophagogastric tamponade and gastric cooling, prevention of aspiration pneumonia by (Edlich et al.), 405
function in monkey, effect of cervical vagectomy on (Binder et al.), 1075
retractor for hiatal hernia repair (Haynes), 560
Esophageal—Cont'd
ulceration, cerebral lesions as cause (Edmondson, Gindin, and Peebles), 720
Esophagitis and gastroesophageal reflux, mucosol flap valve mechanism to prevent (Tocornal, Snow, and Fonkalsrud), 519
Esophagogastric anastomosis and gastrectomy, neonatal gastric necrosis and perforation treated by (Rees and Redo), 472
tamponade and gastric cooling, prevention of aspiration pneumonia by continuous esophageal aspiration during (Edlich et al.), 405
Esophagoscopy, aid: indwelling nasogastric tube (Sachatello), 409
Esophagus, short, transthoracic fundoplication for hiatal and, in 3-year-old child: case report (Clarke and Woodward), 858
Eventration of diaphragm (McNamara et al.), 1003
Eversion proctectomy (Lipton and Siegman), 556
Excision, ileal, versus ileal bypass, effect on cholesterol synthesis and whole blood cholesterol concentration in rabbit (Buchwald et al.), 126
Explanted canine gastric mucosa with vagal innervation, histologic and functional studies (Coder, Shorter, and McIlrath), 769

F

Fabricius, avian bursa, mammalian homologue (Perey, Cooper, and Good), 614
Familial incidence of congenital anorectal anomalies (Cozzi and Wilkinson), 669
Fat absorption, small intestinal, clinical implications of segmental difference in (Gump and Barker), 509
embolism: effect of corticosteroids on experimental fat embolism in rat (Wertzberger and Peltier), 143
Feeding, postoperative, reappraisal: gastric motility after pyloromyotomy in infants (Schärli and Leditschke), 1133
Femoropopliteal shunt, crossover (Goetz and Lord), 681
Fiberscope, small-caliber, for visualization of urinary tract, biliary tract, and spinal canal (Takagi et al.), 1033
Fibromatosis, juvenile (Phelan, Grace, and Pickren), 492
Filtering device for prevention of particulate embolization during course of cardiac surgery (Fadali et al.), 634
Fingers, metastatic lesions (Mohanty, Federowicz, and Uehara), 411
Flap, mucosol, valve mechanism to prevent gastroesophageal reflux and esophagitis (Tocornal, Snow, and Fonkalsrud), 519

Flexion, digital, method for measuring work of, in chicken's foot: effect of sutures, immobilization, and tenolysis on healing of tendons (Craver, Madden, and Peacock), 437
Flow, coronary blood, effects of acute changes in acid-base status (Greenburg and Kittle), 315
probes, electromagnetic, implanted, blood flow after reconstructive arterial surgery measured by (Renwick et al.), 544
Fluid loss, kinetics, from leaks in arteries tested by experimental ex vivo preparation and external counterpressure (Eddy, Wangensteen, and Ludewig), 451
French surgery, role of Confraternity of St. Cosmas in evolution of (Schechter), 1002
Fundic pouches, transplanted gastric, secretory responses, to psychic stimulation (Vogelfanger et al.), 763
Fundoplication, transthoracic, for hiatal hernia and short esophagus in 3-year-old child: case report (Clarke and Woodward), 858

G

Gallbladder's reservoir function importance after small bowel resection (Jordan, Olson, and Paige), 446
Gangrenous acalculous cholecystitis, acute, in infancy: report of case (Lucas and Walt), 847
Gas embolism, role, in decompression sickness, new look at "the bends" (Heimbecker et al.), 264
Gastrectomy and esophagogastric anastomosis, neonatal gastric necrosis and perforation treated by (Rees and Redo), 472
Gastric acid secretion, blood sugar levels in vagal stimulation of, in normal and diabetic dogs, on critical nature (Kemp et al.), 958
cooling and esophagogastric tamponade, prevention of aspiration pneumonia by continuous esophageal aspiration during (Edlich et al.), 405
fundic pouches, transplanted, secretory responses, to psychic stimulation (Vogelfanger et al.), 763
gravity, cooling device for massive upper gastrointestinal hemorrhage, employing water, ice, and impeller pump (Landé et al.), 706
motility after pyloromyotomy in infants: reappraisal of postoperative feeding (Schärli and Leditschke), 1133
mucosa, explanted canine, with vagal innervation, histologic and functional studies (Coder, Shorter, and McIlrath), 769
Gastric—Cont'd
necrosis, neonatal, and perforation treated by gastrectomy and esophagogastric anastomosis (Rees and Redo), 472
secretion and liver function, effect of splenocaval shunt on, as compared with other shunting procedures in dog (Hayashi et al.), 1084
ulcer associated with hypertrophic pyloric stenosis, massive bleeding in newborn infant from (Kelsey et al.), 979
Gastrin I, synthetic human, and radioimmunoassay in serum of patients with Zollinger-Ellison syndrome, production of antibodies to (Stremple and Meade), 165
Gastroesophageal reflux and esophagitis, mucosol flap valve mechanism to prevent (Tocornal, Snow, and Fonkalsrud), 519
Gastrointestinal hemorrhage, massive upper, gravity gastric cooling device for, employing water, ice, and impeller pump (Landé et al.), 706
General surgeon and curriculum (Hardy), 577
surgery versus specialty training at graduate level (Blakemore), 582
Glucose in presence of rapid small bowel transit, abnormal metabolic response to (Stemmer et al.), 192
Graduate education in surgery, conference committee on (Holden), 506
level, specialty training at, versus general surgery (Blakemore), 582
Grafts, portal vein: microscopic study after seven year follow-up (Wimberly, Symbas, and Foster), 761
Graham, Evarts, tribute, great surgical leader and innovator: academic surgical arena, past and present (Wangensteen), 595
Granulating wounds in normal animals, effect of insulin on (Rosenthal and Enquist), 1096
Granuloma, infectious, of lateral umbilical ligament after inguinal heriorrhaphy (Reddy and Dickinson), 973
Gravity gastric cooling device for massive upper gastrointestinal hemorrhage, employing water, ice, and impeller pump (Landé et al.), 706
and overflow system: simple and safe coronary perfusion lines (Eguchi, Matsuzawa, and Asano), 554

H

Heart, ischemic liver and, effect of storage temperature on electrometric surface hydrogen ion activity of (Couch and Middleton), 1099
isolated, functional evaluation: method and apparatus (Pitzele et al.), 308

Hemophilia, experimental cure: transplantation (Norman, Covelli, and Sise), 1
patient, use of cryoprecipitate in surgical treatment of spontaneous rupture of spleen in (Gowda, Vietti, and Ternberg), 1119
Hemorrhage, arterial, hydrodynamics (Wangensteen, Eddy, and Ludewig), 912
and blood replacement with and without hypotension, interstitial fluid pressure changes during (Hopkinson et al.), 68
massive upper gastrointestinal, gravity gastric cooling device for, employing water, ice, and impeller pump (Landé et al.), 706
uncontrolled, in drug-induced hypotension (Milles, Roesel, and Strelka), 801
Hemorrhagic pancreatitis, role of bacteria in (Williams and Byrne), 967
shock, experimental, responses to isoproterenol and THAM during (Myers, Paul, and Julian), 653
metabolic factors associated with endotoxin-induced tolerance for (Drucker, Schlatter, and Drucker), 75
pulmonary changes (Cook and Webb), 85
Hepatectomy, partial, in omphalocele repair (Kleinhaus, Kaufer, and Boley), 484
Hepatic artery, aneurysm: value of arteriography in surgical management (Weaver, Fleming, and Barnes), 891
failure, metabolic buffers in (Grossi, Prytz, and Rousselot), 928
Hepatorenal syndrome, is there a (Blakemore and Boyce), 1138
Hernia, hiatal, repair, esophageal retractor for (Haynes), 560
and short esophagus, transthoracic fundoplication for, in 3-year-old child: case report (Clarke and Woodward), 858
traumatic diaphragmatic (Pomerantz, Rodgers, and Sabiston), 529
Herniorrhaphy, inguinal, infectious granuloma of lateral umbilical ligament after (Reddy and Dickinson), 973
Heterografts, modified bovine, for arterial patches (Wimberly, Lewis and Dale), 433
Heterologous antilymphocyte serum: differential effect on antigen-sensitive and antibody-producing cells (Möller and Zukoski), 39
Hiatal hernia repair, esophageal retractor for (Haynes), 560
and short esophagus, transthoracic fundoplication for, in 3-year-old child: case report (Clarke and Woodward), 858
Hirschsprung's disease, colon atresia and (Hyde and deLorimier), 976
Hirschsprung's disease—Cont'd
primary side-to-side colorectal anastomosis in Duhamel operation for (Steichen, Talbert, and Ravitch), 475
Homograft survival, canine kidney and liver, effect of ribonucleic acid perfusion (Groth et al.), 31
Homotransplantation, auxiliary, of canine liver with use of "reverse" Welch technique (Daloze et al.), 934
experimental aortic valve, without cardiopulmonary bypass (Barnes, Mohri, and Merendino), 647
Hormone, intestinal, secretin, regulation of insulin secretion: studies in man via transumbilical portal vein catheterization (White and Dupré), 204
Humoral immunity, method and inhibition of development: neonatal extirpation of Peyer's patch-type lymphoepithelial tissues in rabbits; mammalian homologue of avian bursa of Fabricius (Perey, Cooper, and Good), 614
Hydrodynamics of arterial hemorrhage (Wangensteen, Eddy, and Ludewig), 912
Hydrogen ion, electrometric surface, activity of ischemic liver and heart, effect of storage temperature on (Couch and Middleton), 1099
Hydropenic men, mannitol-induced diuresis in (Berger, Evers, and Mueller), 381
Hydroxyproline content and tensile strength, long-term comparative study: effect of aluminum suture on wound healing (Wu, Chopra, and Sawyer), 605
Hyperkalemia accompanying canine portal venous occlusion (Bergan et al.), 629
Hypersecretion of aldosterone central venous pressure, reduced, with increased plasma volume, stimulus, in man: phenoxybenzamine-induced vasodilatation (Skillman et al.), 368
Hypertension due to renal allograft rejection by portacaval transposition and renal artery stenosis in dogs, protection against (Schwartz), 1092
experimental portal, in dogs (Talwar, Griffen, and Eiseman), 429
renovascular, in childhood (Coran and Schuster), 672
Hyperventilation, hypoxic, and acute respiratory failure in severely stressed patient: massive pulmonary arteriovenous shunts (Border, Tibbetts, and Schenk), 710
Hypotension, drug-induced, uncontrolled hemorrhage in (Milles, Roesel, and Strelka), 801
hemorrhage and blood replacement, with and without, interstitial fluid pressure changes during (Hopkinson), 68

Hypotension—Cont'd
induced, stimulation of uresis by THAM during, further studies on (Shaftan et al.), 995
Hypovolemic insult, effect of ambient temperature upon responses to, in unanesthetized, unrestrained albino rat (Redding and Mueller), 110
Hypoxic hyperventilation and acute respiratory failure in severely stressed patient: massive pulmonary arteriovenous shunts (Border, Tibbetts, and Schenk), 710

I

Ileal bypass versus ileal excision, effect on cholesterol synthesis and whole blood cholesterol concentration in rabbit (Buchwald et al.), 126
Ileostomy (Brooke), 678
Immobilization, sutures, and tenolysis, effect on healing of tendons: method of measuring work of digital flexion in chicken's foot (Craver, Madden, and Peacock), 437
Immunofluorescence in detection of tumor-specific antigens (Morton et al.), 235
Immunologic enhancement of renal allografts in rat (Stuart et al.), 17
response following homologous transplantation of cultured human tumor cells in patients with malignancy (Mendoza et al.), 897
Impeller pump, water, ice, gravity gastric cooling device for massive upper gastrointestinal hemorrhage, employing (Landé et al.), 706
Indwelling nasogastric tube: distinct aid in esophagoscopy (Sachatello), 409
Infections, clean wound: epidemiology and bacteriology (Snider), 728
experimental, wound suppression, by biocidal sutures (LeVeen et al.), 610
Infectious granuloma of lateral umbilical ligament after inguinal herniorraphy (Reddy and Dickinson), 973
Infusion(s), intermittent intra-arterial for cancer: simple, inexpensive, outpatient method for prolonged regional chemotherapy (Rush, Rowe, and Humphrey), 901
intravenous, of pancreatic juice, relative tolerance of dog to (Dimbiloglu et al.), 805
Inguinal herniorrhaphy, infectious granuloma of lateral umbilical ligament after (Reddy and Dickinson), 973
Injection, single, technique for frequent evaluation of blood volume during experiments not associated with blood loss (Stetz et al.), 1106
Innervation, vagal, explanted canine gastric mucosa with, histologic and functional studies (Coder, Shorter, and McIlrath), 769
Iodophor-soap impregnated polyurethane scrub sponges, disposable, bacteriological evaluation of surgical scrubbing with (Bornside, Crowder, and Cohn), 743
Ion, hydrogen, electrometric surface, activity of ischemic liver and heart, effect of storage temperature on (Couch and Middleton), 1099
Insulin, effect on granulating wounds in normal animals (Rosenthal and Enquist), 1096
productivity, in vitro, of preserved pancreas: simple test to assess viability of pancreatic allografts (Idezuki et al.), 940
secretion, regulation by intestinal hormone, secretin: studies in man via transumbilical portal vein catheterization (White and Dupré), 204
Intestinal arteriolar resistance and critical closing pressure during endotoxin shock, effect of celiac blockade (Hauman), 785
atresia, experimental (Abrams), 185
various patterns (Spencer), 661
hormone, secretin, regulation of insulin secretion by: studies in man via transumbilical portal vein catheterization (White and Dupré), 204
obstruction of newborn infant, use of operative enema in (Krasna, Becker, and Schneider), 856
rotation, reversed, classification (Amir-Jahed et al.), 1071
small, fat absorption, clinical implications of segmental differences in (Gump and Barker), 509
Interstitial fluid pressure changes during hemorrhage and blood replacement with and without hypotension (Hopkinson et al.), 68
Intra-abdominal vascular injury (Perdue and Smith), 562
Intravascular catheter, magnetically controlled (Alksne), 339
Intravenous infusions of pancreatic juice, relative tolerance of dog to (Dimbiloglu et al.), 805
Ischemic liver and heart, effect of storage temperature on electrometric surface hydrogen ion activity of (Couch and Middleton), 1099
Isolated heart: method and apparatus for functional evaluation (Pitzele et al.), 308
Isoproterenol and THAM during experimental hemorrhagic shock responses to (Myers, Paul, and Julian), 653

J

Junction, choledochoduodenal, stenosis in postcholecystectomy syndrome (Schein and Beneventano), 1039
thoracic duct–subclavian vein, nature and significance (Bradham and Takaro), 643
Juvenile fibromatosis (Phelan, Grace, and Pickren), 492

K

Kidneys, donor, from patients with cancer, suitability of (Muiznieks et al.), 871
and liver homograft survival, canine, effect of ribonucleic acid perfusion (Groth et al.), 31
Kinetics of fluid loss from leaks in arteries tested by experimental ex vivo preparation and external counterpressure (Eddy, Wangensteen, and Ludewig), 451

L

Lactate and pyruvate, production by brain: accumulation of lactate and pyruvate in recycling circulation of isolated brain (White et al.), 60
Lactic dehydrogenase activity, II: evaluation of biochemical changes associated with experimental endotoxemia (Sleeman et al.), 622
Leg, confirmed lower extremity venous disease, comparison of clinical and Doppler ultrasound evaluation (Sigel et al.), 332
Leukocytes, human, agglutination of established cell lines by human transplantation sera (McDonald), 48
Lesion(s), cerebral, as cause of esophageal ulceration (Edmondson, Gindin, and Peebles), 720
metastatic, of fingers (Mohanty, Federowicz, and Uehara), 411
solitary aortoiliac (Staple), 569
Ligament, lateral umbilical, infectious granuloma of, after inguinal herniorrhaphy (Reddy and Dickinson), 973
Ligation of appendiceal stump without cauterization: appendectomy (Getzen), 514
Limbs, dogs', model of chronic postsurgical lymphedema in (Danese, Georgalas-Bertakis, and Morales), 814
Liver, canine, auxiliary homotransplantation, with use of "reverse" Welch technique (Daloze et al.), 934
function, effect of splenocaval shunt on gastric secretion and, as compared with other shunting procedures in dog (Hayashi et al.), 1084
Liver—Cont'd
ischemic, and heart, effect of storage temperature on electrometric surface hydrogen ion activity of (Couch and Middleton), 1099
and kidney homograft survival, canine, effect of ribonucleic acid perfusion (Groth et al.), 31
long-term results of portarenal transposition (Ono et al.), 214
Louisville Children's Hospital, experience with 305 cases at: infantile pyloric stenosis (Bell), 983
Lung and chest wall, actinomycosis (McQuarrie and Hall), 905
Lymphatic blocks, surgical approaches to (Danese et al.), 821
Lymphatic, systemic venous, and portal transport: peritoneal electrolyte absorption (Kraft, Tompkins, and Jesseph), 148
Lymphedema, chronic postsurgical, in dogs' limbs, model (Danese, Georgalas-Bertakis, and Morales), 814
Lymphoepithelial tissues, Peyer's patch-type, neonatal extirpation, in rabbits: method and inhibition of development of humoral immunity; mammilian homologue of avian bursa of Fabricius (Perey, Cooper, and Good), 614

M

Magnetically controlled intravascular catheter (Alksne), 339
Malignancy, immunologic response following homologous transplantation of cultured human tumor cells in patients with (Mendoza et al.), 897
prostatic, human, model: SV40-transformed hamster prostatic tissue (Paulson et al.), 241
Malignant, and benign, sacrococcygeal teratomas (Donnellan and Swenson), 834
melanoma: appraisal (Stehlin), 1149
human, demonstration of antibodies by immunofluorescence (Morton et al.), 233
Mammalian homologue of avain bursa of Fabricius. I (Perey, Cooper, and Good), 614
Mannitol influence, on toxic reaction to contrast angiography (Snyder, Killen, and Foster), 640
induced diuresis in hydropenic men (Berger, Evers, and Mueller), 381
Measurement and monitoring of acutely ill patients by digital computer (Osborn et al.), 1057
Mechanism, carotid sinus: regulation of venous capacity (Dow and Fry), 346

Median nerve defects, major, cross-arm nerve pedicle flap for reconstruction (Edgerton), 248
Medical education, role of surgical specialties in (Harrison, Quigley, and Taylor), 587
Medium, contrast, angiographic, small bowel injury by (Sewell, Killen, and Foster), 459
Melanoma, human malignant, demonstration of antibodies against, by immunofluorescence (Morton et al.), 233
malignant: appraisal (Stehlin), 1149
Mesenteric artery, superior, posttraumatic aneurysm of abdominal aorta with recurrent emboli to: case report (Smith et al.), 736
Metabolic, abnormal, response to glucose in presence of rapid small bowel transit (Stemmer et al.), 192
buffers in hepatic failure (Grossi, Prytz, and Rousselot), 928
factors associated with endotoxin-induced tolerance for hemorrhagic shock (Drucker, Schlatter, and Drucker), 75
Metastatic lesions of fingers (Mohanty, Federowicz, and Uehara), 411
Microcirculatory pulmonary response to shock, transfusion, and pump-oxygenator procedures: unified mechanism underlying pulmonary damage (Veith et al.), 95
Microorganisms, cutaneous, location (Pecora, Landis, and Martin), 1114
Monitoring, continuous blood pressure, disposable apparatus (Ramsey), 1161
measurement and, of acutely ill patients by digital computer (Osborn et al.), 1057
Mortality rate, operative, of aortic resections (Sanger et al.), 359
Motility, gastric, after pyloromyotomy in infants: reappraisal of postoperative feeding (Schärli and Leditschke), 1133
Mucosa, explanted canine gastric, with vagal innervation, histologic and functional studies (Coder, Shorter, and McIlrath), 769
Mucosol flap valve mechanism to prevent gastroesophageal reflux and esophagitis (Tocornal, Snow, and Fonkalsrud), 519
Myocardial revascularization, further studies in multiple transmyocardial acupuncture as method (Sen et al.), 861

N

Nasogastric tube, indwelling: distinct aid in esophagoscopy (Sachatello), 409
Necrosis, neonatal gastric, and perforation treated by gastrectomy and esophagogastric anastomosis (Rees and Redo), 472
Neonatal brain tumor treated by surgery and postoperative radiotherapy (Weiss and Raskind), 503
extirpation of Peyer's patch-type lymphoepithelial tissue in rabbits: method and inhibition of development of humoral immunity; mammalian homologue of avian bursa of Fabricius (Perey, Cooper, and Good), 614
gastric necrosis and perforation treated by gastrectomy and esophagogastric anastomosis (Rees and Redo), 472
Nephrectomy, bilateral and renal allotransplantation, simultaneous, for bilateral Wilms' tumor (deLorimier et al.), 850
Nephrotic syndrome and bilateral renal vein thrombosis, treatment (Cohn et al.), 387
Nerve pedicle flap, cross-arm, for reconstruction of major defects of median nerve (Edgerton), 248
Nitrogen balance, positive, development, and growth, long-term total parenteral nutrition with (Dudrick et al.), 134
Nutrition, parenteral, long-term total, with growth, development, and positive nitrogen balance (Dudrick et al.), 134

O

Occluder, new atraumatic aortic (Conn, Trippel, and Bergan), 1158
Occlusion, canine portal venous, hyperkalemia accompanying (Bergan et al.), 629
Omphalocele repair, partial hepatectomy in (Kleinhaus, Kaufer, and Boley), 484
Overflow and gravity system: simple and safe coronary perfusion line (Eguchi, Matsuzawa, and Asano), 554
Oxygen therapy, hyperbaric, for chemical pneumonitis: experimental and clinical observations (Gorman et al.), 1027

P

Pancreas, preserved, in vitro insulin productivity: simple test to assess viability of pancreatic allografts (Idezuki et al.), 940
Pancreatic juice, relative tolerance of dog to intravenous infusions (Dimbiloglu et al.), 805
Pancreatitis acute, peritoneal dialysis in treatment (Bolooki and Gliedman), 466
hemorrhagic, role of bacteria in (Williams and Byrne), 967
Paraplegia: complication of excision of abdominal aortic aneurysm (Coupland and Reeve), 878
Parathyroid preservation, successful: experimental study (Sonoda et al.), 791
staining, in vivo, clinical application (Owens, Sorock, and Brown), 1049

Parenteral nutrition, long-term total, with growth, development, and positive nitrogen balance (Dudrick et al.), 134

Parietal cell antibody, techniques of production with: experimental achlorhydria (Walder), 175

Particulate embolization, filtering device for prevention, during course of cardiac surgery (Fadali et al.), 634

Passive transfer of sensitized serum rejection of canine renal allografts by (Dubernard et al.), 752

Patches, arterial, modified bovine heterografts for (Wimberly, Lewis, and Dale), 433

Pedicle flap, cross-arm nerve, for reconstruction of major defects of median nerve (Edgerton), 248

Perforation and neonatal gastric necrosis treated by gastrectomy and esophagogastric anastomosis (Rees and Redo), 472

Perfusion line, coronary, simple and safe: gravity and overflow system (Eguchi, Matsuzawa, and Asano), 554

ribonucleic acid, effect on canine kidney and liver homograft survival (Groth et al.), 31

Peritoneal dialysis in treatment of acute pancreatitis (Bolooki and Gliedman), 466

electrolyte absorption: analysis of portal, systemic venous, and lymphatic transport (Kraft, Tompkins, and Jesseph), 148

Peyer's patch-type lymphoepithelial tissues, neonatal extirpation, in rabbits: method and inhibition of development of humoral immunity; mammalian homologue of avian bursa of Fabricius (Perey, Cooper and Good), 614

Phenoxybenzamine-induced vasodilatation: stimulus to increased plasma volume with reduced central venous pressure and aldosterone hypersecretion in man (Skillman et al.), 368

Plasma volume stimulus with reduced central venous pressure and aldosterone hypersecretion in man: phenoxybenzamine-induced vasodilatation (Skillman et al.), 368

Platelet-surface reaction and thrombosis (Evans and Mustard), 273

Pneumatic surfactometer, quantitative dynamic pulmonary surfactant determination with (Greenfield and Duncan), 351

Pneumonia, aspiration, prevention by continuous esophageal aspiration during esophagogastric tamponade and gastric cooling (Edlich et al.), 405

Pneumonitis, chemical, hyperbaric oxygen therapy for: experimental and clinical observation (Gorman et al.), 1027

Pneumothorax, spontaneous, in newborn infant (Kreuger, Sherafat, and Reagan), 498

Polyurethane scrub sponges, disposable iodophor-soap impregnated, bacteriological evaluation of surgical scrubbing with (Bornside, Crowder, and Cohn), 743

Portacaval transposition and renal artery stenosis in dogs, protection against hypertension due to renal allograft rejection by (Schwartz), 1092

Portal hypertension in dogs, experimental (Talwar, Griffen, and Eiseman), 429

systemic venous, and lymphatic transport, analysis: peritoneal electrolyte absorption (Kraft, Tompkins, and Jesseph), 148

vein catheterization, transumbilical, studies in man by: regulation of insulin secretion by intestinal hormone, secretin (White and Dupré), 204

venous occlusion, canine, hyperkalemia accompanying (Bergan et al.), 629

Portarenal transposition, long-term results, in dogs (Ono et al.), 214

Postcholecystectomy syndrome, choledochoduodenal junction stenosis in (Shein and Beneventano), 1039

Pouches, transplanted gastric fundic, secretory responses, to psychic stimulation (Vogelfanger et al.), 763

Pressure changes, interstitial fluid, during hemorrhage and blood replacement with and without hypotension (Hopkinson et al.), 68

Probes, electromagnetic flow, implanted, blood flow after reconstructive arterial surgery measured by (Renwick et al.), 544

Proctectomy, eversion (Lipton and Siegman), 556

Prostatic tissue, SV40-transformed hamster: model of human prostatic malignancy (Paulson et al.), 241

Psychic stimulation, secretory responses of transplanted gastric fundic pouches to (Vogelfanger et al.), 763

Pulmonary arteriovenous shunts, massive: hypoxic hyperventilation and acute respiratory failure in severely stressed patient (Border, Tibbetts, and Schenk), 710

changes in hemorrhagic shock (Cook and Webb), 85

microcirculatory response to shock, transfusion, and pump-oxygenator procedures: unified mechanism underlying pulmonary damage (Veith et al.), 95

stenosis, experimental, created at birth (Frater et al.), 322

Pulmonary—Cont'd
surfactant, quantitative dynamic, determinations with pneumatic surfactometer (Greenfield and Duncan), 351
Pump flow in cardiopulmonary bypass, simple means of estimating amount (Colt), 1001
impeller, water, ice, gravity gastric cooling device for massive upper gastrointestinal hemorrhage, employing (Landé et al.), 706
-oxygenator, transfusion, and shock procedures, pulmonary microcirculatory response to: unified mechanism underlying pulmonary damage (Veith et al.), 95
Pyloric stenosis, hypertrophic, massive bleeding in newborn infant from gastric ulcer associated with (Kelsey et al.), 979
infantile: experience with 305 cases and Louisville Children's Hospital (Bell), 983
Pyloromyotomy, gastric motility after, in infants: reappraisal of postoperative feeding (Schärli and Leditschke), 1133
Pyruvate and lactate, production by brain: accumulation of lactate and pyruvate in recycling circulation of isolated brain (White et al.), 60

R

Radioimmunoassay of gastrin and production of antibodies to synthetic human gastrin I in serum of patients with Zollinger-Ellison syndrome (Stremple and Meade), 165
Radiotherapy, postoperative, and surgery, neonatal brain tumor treatment by (Weiss and Raskind), 503
Reconstructive arterial surgery, blood flow after, measured by implanted electromagnetic flow probes (Renwick et al.), 544
Reflux, gastroesophageal, and esophagitis, mucosol flap valve mechanism to prevent (Tocornal, Snow, and Fonkalsrud), 519
Reimplantation, cardiopulmonary, staged en masse, in dogs (Yacoubian, Slim, and Simonian), 418
Renal allograft(s), canine, rejection by passive transfer of sensitized serum (Dubernard et al.), 752
immunologic enhancement, in rat (Stuart et al.), 17
rejection by portacaval transposition and renal artery stenosis in dogs, protection against hypertension due to (Schwartz), 1092
sensitized rejection, in dogs after long function of first renal allografts. preliminary communication (Sheil and Murray, 954
Renal—Cont'd
allotransplantation, simultaneous bilateral nephrectomy and, for bilateral Wilm's tumor (deLorimier et al.), 850
vein(s), percutaneous transjugular catheterization (Killen), 1053
thrombosis, bilateral, and nephrotic syndrome, treatment (Cohn et al), 387
Renovascular hypertension in childhood (Coran and Schuster), 672
Resection(s) aortic, operative mortality rate (Sanger et al.), 359
small bowel, importance of gallbladder's reservoir function (Jordan, Olson, and Paige), 446
Reservoir function, importance of gallbladder's, after small bowel resection (Jordan, Olson, and Paige), 446
Respiratory failure, acute, and hypoxic hyperventilation, in severely stressed patient: massive pulmonary arteriovenous shunts (Border, Tibbetts, and Schenk), 710
Reticuloendothelial function, effect of extracorporeal circulation on. I. Experimental evidence for impaired reticuloendothelial function following cardiopulmonary bypass in rats (Subramanian, McLeod, and Gans), 775
Retractor, esophageal, for hiatal hernia repair (Haynes), 560
Revascularization, myocardial, as method for multiple transmyocardial acupuncture, further studies (Sen et al.), 861
Ribonucleic acid perfusion, effect on canine kidney and liver homograft survival (Groth et al.), 31

S

Sacrococcygeal teratomas, benign and malignant (Donnellan and Swenson), 834
St. Cosmas, Confraternity, role, in evolution of French surgery (Schechter), 1002
Scientists, surgical, engineering approach to training (Blesser et al.), 226
Scrubbing, surgical, with disposable iodophor-soap impregnated polyurethane scrub sponges, bacteriological evaluation (Bornside, Crowder, and Cohn), 743
Secretin, intestinal hormone regulating insulin secretion: studies in man via transumbilical portal vein catheterization (White and Dupré), 204
Secretion, gastric acid, blood sugar levels in vagal stimulation of, in normal and diabetic dogs, on critical nature (Kemp et al.), 958
and liver function, effect of splenocaval shunt on, as compared with other shunting procedures in dog (Hayashi et al.), 1084

Secretory responses of transplanted gastric fundic pouches to psychic stimulation (Vogelfanger et al.), 763
Septal, ventricular, defect, right ventricular aneurysm and, caused by nonpenetrating cardiac trauma, repair (Stinson, Rowles, and Shumway), 1022
Serum, heterologous antilymphocyte: differential effect on antigen-sensitive and antibody-producing cells (Möller and Zukoski), 39
human transplantation, human leukocytes agglutination of established cell lines (McDonald), 48
of patients with Zollinger-Ellison syndrome, production of antibodies to synthetic human gastrin I and radioimmunoassay of gastrin in (Stremple and Meade), 165
sensitized, rejection of canine renal allografts by passive transfer (Dubernard et al.), 752
Shock, endotoxin, effect of celiac blockade on intestinal arteriolar resistance and critical closing pressure during (Hauman), 785
experimental hemorrhagic, responses to isoproterenol and THAM during (Myers, Paul, and Julian), 653
posthemorrhagic, in dogs, central venous pressure and blood volume determinations after alpha-adrenergic blockade in (Ranganathan and Phillips), 1140
hemorrhagic, metabolic factors associated with endotoxin-induced tolerance for (Drucker, Schlatter, and Drucker), 75
pulmonary changes (Cook and Webb), 85
localization of energy pathway block in (Schumer), 55
transfusion, and pump-oxygenator procedures, pulmonary microcirculatory response to: unified mechanism underlying pulmonary damage (Veith et al.), 95
Shunt, crossover femoropopliteal (Goetz and Lord), 681
splenocaval, effect on gastric secretion and liver function as compared with other shunting procedures in dog (Hayashi et al.), 1084
Shunting, portacaval, long-term results in portarenal transposition in dogs (Ono et al.), 214
Sinus, carotid, mechanism: regulation of venous capacity (Dow and Fry), 346
Skin allograft survival, enhancement, in man (Rapaport et al.), 25
Smith, Nathan, M. D.: Yale's first professor of surgery (1762-1829) (Lindskog), 524
Specialty, surgical, role, in medical education (Harrison, Quigley, and Taylor), 587
Specialty—Cont'd
training versus general surgery at graduate level (Blakemore), 582
Spinal canal, urinary tract, biliary tract and, small-caliber fiberscope for visualization (Takagi et al.), 1033
Spleen, spontaneous rupture of, in hemophilia patient, use of cryoprecipitate in surgical treatment of (Gowda, Vietti, and Ternberg), 1119
transplantation, experimental cure of hemophilia (Norman, Covelli, and Sise), 1
Splenic cysts in children (McNamara et al.), 487
Splenocaval shunt, effect on gastric secretion as compared with other shunting procedures in dog (Hayashi et al.), 1084
Sponges, disposable iodophor-soap impregnated polyurethane scrub, bacteriological evaluation of surgical scrubbing with (Bornside, Crowder, and Cohn), 743
Staining, in vivo parathyroid, clinical application (Owens, Sorock, and Brown), 1049
Staplers, use, in anatomical side-to-side and functional end-to-end enteroanastomoses (Steichen), 948
Stenosis, choledochoduodenal junction, in postcholecystectomy syndrome (Schein and Beneventano), 1039
hypertrophic pyloric, massive bleeding in newborn infant from gastric ulcer associated with (Kelsey et al.), 979
infantile pyloric: experience with 305 cases at Louisville Children's Hospital (Bell), 983
pulmonary, experimental created at birth (Frater et al.), 322
renal artery, in dogs, protection against hypertension due to renal allograft rejection by portacaval transposition and (Schwartz), 1092
Sterility of calf venous blood studies (Barnes, Mohri, and Merendino), 797
Stump, appendiceal, ligation, without cauterization: appendectomy (Getzen), 514
Subclavian vein junction, thoracic duct, nature and significance (Bradham and Takaro), 643
Sugar, blood, levels in vagal stimulation of gastric acid secretion in normal and diabetic dogs, on critical nature (Kemp et al.), 958
Surfactant, pulmonary, quantitative dynamic, determinations with pneumatic surfactometer (Greenfield and Duncan), 351
Surfactometer, pneumatic, quantitative dynamic pulmonary surfactant determinations with (Greenfield and Duncan), 351
Surgeon(s), five, story of: lest we forget (Colcock), 1162

Surgeon(s)—Cont'd
general, and curriculum (Hardy), 577
human experimentation and (Nyhus), 701
Surgery, cardiac, filtering device for prevention of particulate embolization during (Fadali et al.), 634
French, role of Confraternity of St. Cosmas in evolution of (Schechter), 1002
general, versus specialty training at graduate level (Blakemore), 582
graduate education in, conference committee on (Holden), 506
professor, Yale's first: Nathan Smith, M.D. (1762-1829) (Lindskog), 524
reconstructive arterial, blood flow after, measured by implanted electromagnetic flow probes (Renwick et al.), 544
Surgical approaches to lymphatic blocks (Danese et al.), 821
education, undergraduate, elective programs: early evaluation (Polk and Zeppa), 295
at Utah: innovation and evaluation (Maxwell et al.), 302
management, value of arteriography in: aneurysm of hepatic artery (Weaver, Fleming, and Barnes), 891
patients, delirium tremens in (Glickman and Herbsman), 882
scrubbing, with disposable iodophor-soap impregnated polyurethane scrub sponges, bacteriological evaluation (Bornside, Crowder, and Cohn), 743
specialties, role, in medical education (Harrison, Quigley, and Taylor), 587
treatment of spontaneous rupture of spleen in hemophilia patient, use of cryoprecipitate in (Gowda, Vietti, and Ternberg), 1119
Suture(s) aluminum, effect, on wound healing: long-term comparative study on tensile strength and hydroxyproline content, 605
biocidal, suppression of experimental wound infection (LeVeen et al.), 610
immobilization, and tenolysis, effect, on healing of tendons: method for measuring work of digital flexion in chicken's foot (Craver, Madden, and Peacock), 437
stay, anchor technique for (Goodrich), 416
SV40-transformed hamster prostatic tissue: model of human prostatic malignancy (Paulson et al.), 241
Syndrome, hepatorenal, is there a (Blakemore and Boyce), 1138
nephrotic, and bilateral renal vein thrombosis, treatment (Cohn et al.), 387
postcholecystectomy, choledochoduodenal junction stenosis in (Schein and Beneventano), 1039
Syndrome—Cont'd
Zollinger-Ellison, production of antibodies to synthetic human gastrin I and radioimmunoassay of gastrin in serum of patients with (Stremple and Meade), 165
Synthesis, cholesterol, and whole blood concentrations, effect of ileal bypass versus ileal excision on, in rabbit (Buchwald et al.), 126
collagen, and deposition, rate in cutaneous wounds of rat: studies on biology of collagen during wound healing (Madden and Peacock), 288
Synthetic human gastrin I, production of antibodies to, and radioimmunoassay of gastrin in serum of patients with Zollinger-Ellison syndrome (Stremple and Meade), 165
Systemic venous, portal, and lymphatic transport, analysis, peritoneal electrolyte absorption (Kraft, Tompkins, and Jesseph), 148

T

Tamponade, esophagogastric, and gastric cooling, prevention of aspiration pneumonia by continuous esophageal aspiration during (Edlich et al.), 405
Technique, anchor, for stay sutures (Goodrich), 416
for bile collection in unanesthetized dog (Britt, Estes, and Schapiro), 443
"reverse" Welch, auxiliary homotransplantation of canine liver with use of (Daloze et al.), 934
single injection, for frequent evaluation of blood volume during experiments not associated with blood loss (Stetz et al.), 1106
Temperature, ambient, effect on responses to hypovolemic insult in unanesthetized, unrestrained albino rat (Redding and Mueller), 110
storage, effect, on electrometric surface hydrogen ion activity of ischemic liver and heart (Couch and Middleton), 1099
Tendon healing, effect of sutures, immobilization, and tenolysis on: method for measuring work of digital flexion in chicken's foot (Craver, Madden, and Peacock), 437
Tenolysis, sutures, and immobilization, effect, on healing of tendons: method for measuring work of digital flexion in chicken's foot (Craver, Madden, and Peacock), 437
Tensile strength and hydroxyproline content, long-term comparative study: effect of aluminum suture on wound healing (Wu, Chopra, and Sawyer), 605

Teratomas, sacrococcygeal, benign and malignant (Donnellan and Swenson), 834
Tetanus at Charity Hospital, New Orleans, La. (collection of cases from 1962 to 1966) (Moore et al.), 397
THAM and isoproterenol during experimental hemorrhagic shock responses to (Myers, Paul, and Julian), 653
stimulation of uresis by, during induced hypotension, further studies on (Shaftan et al.), 995
Therapy, hyperbaric oxygen, for chemical pneumonitis: experimental and clinical observations (Gorman et al.), 1027
Thoracic duct–subclavian vein junction, nature and significance (Bradham and Takaro), 643
Thrombosis, bilateral renal vein, and nephrotic syndrome, treatment (Cohn et al.), 387
comparison of clinical and Doppler ultrasound evaluation of confirmed lower extremity venous disease (Sigel et al.), 332
of deep veins of arm (Coon and Willis), 990
and platelet-surface reaction (Evans and Mustard), 273
Thrombotic and antithrombotic drugs, effect, on surface charge characteristics of canine blood vessels: in vivo and in vitro studies (Srinivasan et al.), 827
Tissue, prostatic, SV40-transformed hamster: model of human prostatic malignancy (Paulson et al.), 241
Toxic effects of angiographic contrast medium on small bowel (Sewell, Killen and Foster), 459
reactions to contrast angiography, influence of mannitol on (Snyder Killen, and Foster), 640
Training, specialty, versus general surgery at graduate level (Blakemore), 582
of surgical scientists, engineering approach to (Blesser et al.), 226
Transfer, passive, of sensitized serum, rejection of canine renal allografts by (Dubernard et al.), 752
Transfusion, blood, history: tercentennial look (Hutchin), 685
shock, and pump-oxygenator procedures, pulmonary microcirculatory response to: unified mechanism underlying pulmonary damage (Veith et al.), 95
Transmyocardial acupuncture, multiple, as method of myocardial revascularization, further studies in (Sen et al.), 861
Transplantation: auxiliary homotransplantation of canine liver with use of "reverse" Welch technique (Daloze et al.), 934
Transplantation—Cont'd
homologous, of cultured human tumor cells in patients with malignancy immunologic response following (Mendoza et al.), 897
in vitro insulin productivity of preserved pancrease: simple test to assess viability of pancreatic allografts (Idezuki et al.), 940
rejection of canine renal allografts by passive transfer of sensitized serum (Dubernard et al.), 752
sensitized rejection of second renal allografts in dogs after long function of first renal allografts. preliminary communication (Sheil and Murray), 954
sera, human, human leukocyte agglutination of established cell lines (McDonald), 48
of spleen: experimental cure of hemophilia (Norman, Covelli, and Sise), 1
Transplanted gastric fundic pouches, secretory responses, to pyschic stimulation (Vogelfanger et al.), 763
Transport, lymphatic, portal systemic venous analysis: peritoneal electrolyte absorption (Kraft, Tompkins, and Passi), 148
Transposition, portarenal, long-term results in dogs (Ono et al.), 214
Transumbilical portal vein catheterization, studies in man: regulation of insulin secretion by the intestinal hormone, secretin (White and Dupré), 204
Trauma, nonpenetrating cardiac, repair of right ventricular aneurysm and ventricular septal defect caused by (Stinson, Rowles and Shumway), 1022
Traumatic diaphragmatic hernia (Pomerantz, Rodgers, and Sabiston), 529
Treatment, acute pancreatitis, peritoneal dialysis in (Bolooki and Gliedman), 466
of bilateral renal vein thrombosis and nephrotic syndrome (Cohn et al.), 387
operative, of boutonnière deformity (Kilgore, and Graham), 999
surgical, of spontaneous rupture of spleen in hemophilia patient, use of cryoprecipitate in (Gowda, Vietti, and Ternberg), 1119
Tremens, delirium, in surgical patients (Glickman and Herbsman), 882
Tube, indwelling nasogastric: distinct aid in esophagoscopy (Sachatello), 409
Tumor(s): benign and malignant sacrococcygeal teratomas (Donnellan and Swenson), 834
cells, cultured human, in patients with malignancy, immunologic response following homologous transplantation (Mendoza et al.), 897

Tumor(s)—Cont'd
malignant melanoma: appraisal (Stehlin), 1149
neonatal brain, treated by surgery and postoperative radiotherapy (Weiss and Raskind), 503
primary esophageal adenocarcinoma: report of 16 cases (Lortat-Jacob et al.), 535
Wilms', simultaneous bilateral nephrectomy and renal allotransplantation for (de-Lorimier et al.), 850
-specific antigens, immunoflourescence in detection (Morton et al.), 233

U

Ulcer, gastric, associated with hypertrophic pyloric stenosis, massive bleeding in newborn infant from (Kelsey et al.), 979
Ulceration, esophageal, cerebral lesions as cause (Edmondson, Gindin, and Peebles), 720
Umbilical ligament, lateral, infectious granuloma of, after inguinal herniorrhaphy (Reddy and Dickinson), 973
Undergraduate surgical education, elective programs, early evaluation (Polk and Zeppa), 295
at Utah: innovation and evaluation (Maxwell et al.), 302
Uresis, stimulation, by THAM during induced hypertension, further studies on (Shafttan et al.), 995
Urinary tract, biliary tract, and spinal canal, small-caliber fiberscope for visualization (Takagi et al.), 1033
Utah, undergraduate surgical education: innovation and evaluation (Maxwell et al.), 302

V

Vagal innervation, explanted canine gastric mucosa with, histologic and functional studies (Coder, Shorter, and McIlrath), 769
stimulation of gastric acid secretion in normal and diabetic dogs, on critical nature of blood sugar levels in (Kemp et al.), 958
Valve, aortic, homotransplantation, experimental, without cardiopulmonary bypass (Barnes, Mohri, and Merendino), 647
mechanism, mucosol flap, to prevent gastroesophageal reflux and esophagitis (Tocornal, Snow and Fonkalsrud), 519
Vascular injury, intra-abdominal (Perdue and Smith), 562
Vasodilatation, phenoxybenzamine-induced: stimulus to increased plasma volume with reduced central venous pressure and aldosterone hypersecretion in man (Skillman et al.), 368
Vagectomy, cervical, effect on esophageal function in monkey (Binder et al.), 1075
Vein(s) catheterization, differential adrenal, unilateral adrenalectomy for aldosteronomas localized preoperatively by (Egdahl, Kahn, and Melby), 117
transumbilical portal, studies in man by: regulation of insulin secretion by intestinal hormone, secretin (White and Dupré), 204
deep, of arm, thrombosis (Coon and Willis), 990
grafts, portal: microscopic study after seven year follow-up (Wimberly, Symbas, and Foster), 761
junction, thoracic duct–subclavian, nature and significance (Bradham and Takaro), 643
renal, percutaneous transjugular catheterization (Killen), 1053
thrombosis, bilateral renal, and nephrotic syndrome, treatment (Cohn et al.), 387
Venous blood, calf, studies of sterility (Barnes, Mohri, and Merendino), 797
capacity, regulation: carotid sinus mechanism (Dow and Fry), 346
disease, confirmed, of lower extremity, comparison of clinical and Doppler ultrasound evaluation (Sigel et al.), 332
occlusion, portal, canine, hyperkalemia accompanying (Bergan et al.), 629
pressure, central, and aldosterone hypersecretion, reduced stimulus to increased plasma volume with, in man: phenoxybenzamine-induced vasodilatation (Skillman et al.), 368
and blood volume determinations after alpha-adrenergic blockade in experimental posthemorrhagic shock in dogs (Ranganathan and Phillips), 1140
systemic, portal, and lymphatic transport analysis: peritoneal electrolyte absorption (Kraft, Tompkins, and Jesseph), 148
Ventricular, right, aneurysm and ventricular septal defect caused by nonpenetrating cardiac trauma, repair (Stinson, Rowles, and Shumway), 1022
Viral-induced tumor from prostatic tissue: model of human prostatic malignancy (Paulson et al.), 241

W

Water balance measurement—guide to surgical care (Gump et al.), 154

Welch technique, "reverse," auxiliary homotransplantation of canine liver with use of (Daloze et al.), 934
Wilms' tumor, bilateral, simultaneous bilateral nephrectomy and renal allotransplantation for (deLorimier et al.), 850
Wound(s), clean, infections: epidemiology and bacteriology (Snider), 728
granulating, effect of insulin on, in normal animals (Rosenthal and Enquist), 1096
healing effect of aluminum suture on: long-term comparative study on tensile strength and hydroxyproline content (Wu, Chopra, and Sawyer), 605
Wound healing—Cont'd
studies on biology of collagen: rate of synthesis and deposition in cutaneous wounds of rat (Madden and Peacock), 288
infections, experimental, suppression, by biocidal sutures (LeVeen et al.), 610

Z

Zollinger-Ellison syndrome, production of antibodies to synthetic human gastrin I and radioimmunoassay of gastrin in serum of patients with (Stremple and Meade), 165
